Location	This position can cover from Wellington, Porirua and Paraparaumu. From time to time as part of Variance Response you may be required to work in other areas.

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Te Wao Nui, the Child Health Service for the Wellington Region and Central New Zealand based in the new purpose built children's hospital on the Wellington Regional Hospital campus, supports babies to adolescents with medical conditions or who may need paediatric surgery. It provides both hospital and outpatient services.

Women's Health Services provide tertiary level maternity care in Wellington and Hutt Regional Hospitals and a Primary Birthing Unit in Kenepuru. The provision of services from Women's Health encompass community-based primary LMC care and breastfeeding support, and tertiary level obstetrics, gynaecology, and other specialist services.

The provision of maternity services encompasses community-based midwifery Lead Maternity Carers (who are not hospital employees,) Community Midwifery Team midwives, breastfeeding support and specialist level obstetric and gynaecology services.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- Mana whakahaere** Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
- Mana motuhake** Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
- Mana tāngata** Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
- Mana Māori** Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

Te Mauri o Rongo

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

Wairuatanga

Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

Rangatiratanga

As organisations we support our people to lead. We know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

Whanaungatanga

We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together.

Te Korowai Āhuru

A cloak which seeks to provide safety and comfort to the workforce.

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Maternity Service Perspective

The maternity service across the district provides care to 5,000 birthing people per annum. Primary care is provided at all facilities. Secondary care is provided at Wellington Regional hospital and Hutt hospital. Wellington Regional hospital provides tertiary care to the central region. All Capital, Coast and Hutt Valley facilities are Baby Friendly Hospital Initiative (BFHI) accredited. The district is supported by community midwifery teams with outreach clinics in each locality.

Service Perspective

The Integrated Operations Centre (IOC) provides a comprehensive clinical and operational service 24/7. The service has two arms: clinical and operational. The clinical areas include Transit Care and Lounge and the operational arm comprises the Bureau, Duty Nurse Manager team, Care Capacity Demand Management (CCDM) and Trendcare.

In normal working hours the service will support services to meet their targets and plans and after hours will hold the delegated authority of the Groups to ensure the effective running of the hospitals.

Purpose of the role

To provide safe effective midwifery care with pregnant people and their whānau throughout the maternity experience, maintaining an accepted standard of clinical expertise that is based on current research and recommended 'best practice'. Midwives will work principally within the maternity services at either Wellington, Kenepuru, Paraparaumu or Hutt Valley. However, all employees at Capital, Coast and Hutt Valley District may be required to undertake duties in other areas of the organisation which reasonably fall within the general parameters of the employee's scope of practice e.g. neonatal intensive care unit or antenatal/ postnatal women located in other areas of the hospital.

Key Accountabilities

The following role accountabilities may evolve with organisational change and there may be additional duties, relevant to this position that will be required to be performed from time to time.

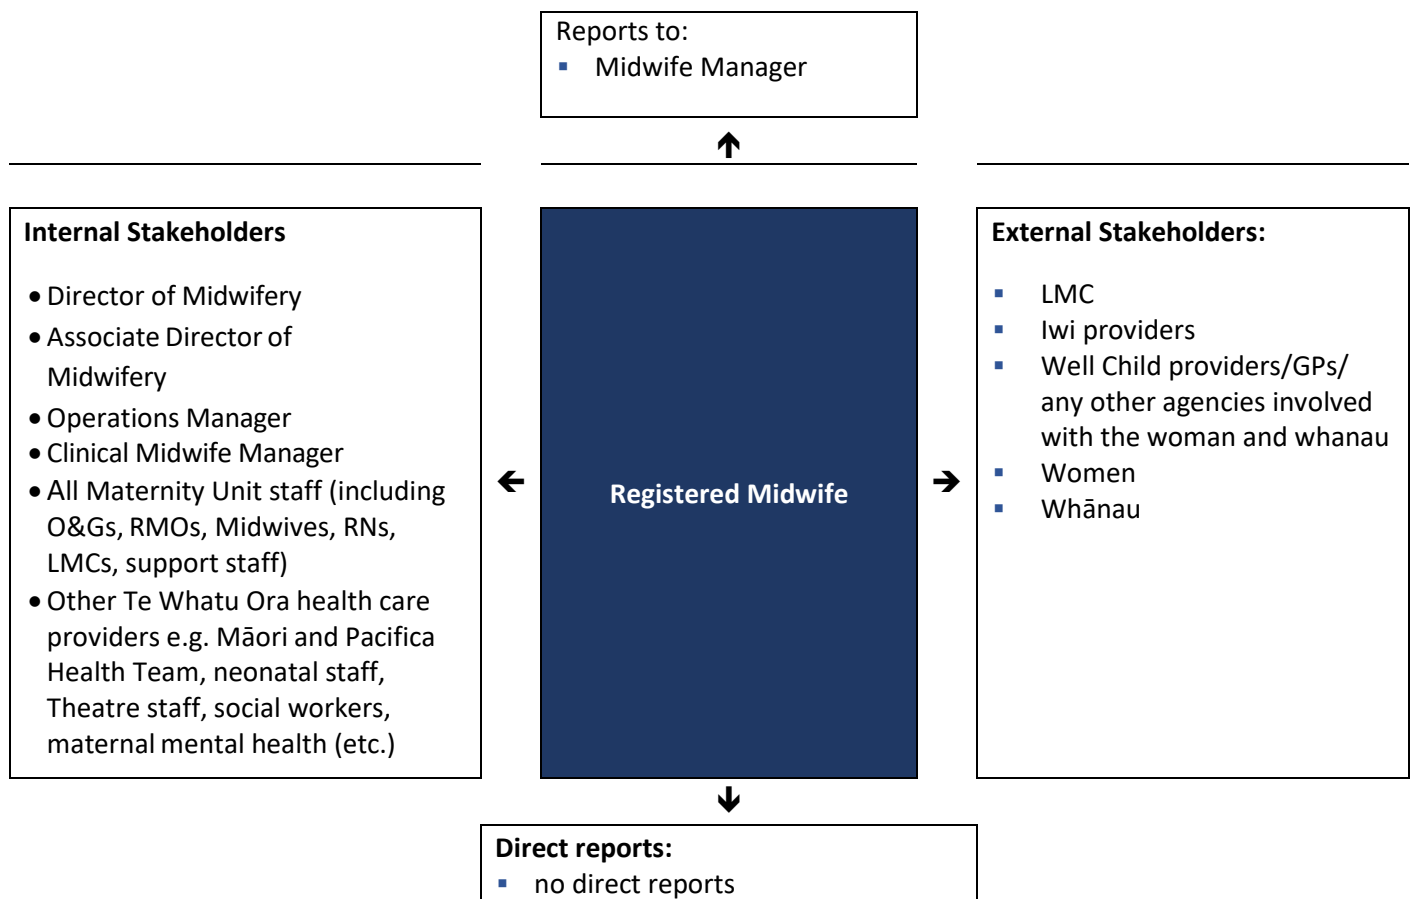

Deliverables / Outcomes
