Service / Directorate	Cardiology
Directorate	Sub-Speciality Medicine
District	Capital, Coast & Hutt Valley
Responsible to	Charge Cardiac Physiologist
Children's Act 2014	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
Location	This position is expected to work from Wellington Hospital and Hutt Valley Hospital.

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region

- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- Mana whakahaere** Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
- Mana motuhake** Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
- Mana tāngata** Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
- Mana Māori** Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

The Vision, Mission and Values from our District

We bring forward and join our values within our district. These will change as we become a team of teams within Te Whatu Ora.

Hutt Valley

- Vision:** Whanau Ora ki te Awakairangi: Healthy people, healthy families and healthy communities are so interlinked that it is impossible to identify which one comes first and then leads to another
- Mission:** Working together for health and wellbeing
- Ō mātou uara - Values:** Mahi Pai 'Can do': Mahi Tahi in Partnership: Mahi Tahi Te Atawhai Tonu Always caring and Mahi Rangatira being our Best

Capital and Coast:

- Vision:** Keeping our community healthy and well
- Mission:** Together, Improve the Health and Independence of the People of the District
- Values:** Manaakitanga – Respect, caring, kindness
Kotahitanga – Connection, unity, equity
Rangatiratanga – Autonomy, integrity, excellence

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Unit Perspective

The Cardiology Service is a secondary and tertiary service provided for Capital, Coast and Hutt Valley and those of the central region of New Zealand.

Cardiology at Capital, Coast and Hutt Valley includes:

- Outpatient Clinics
- Cardiac Diagnostic Testing
- The Heart and Lung Unit
- Specialist nurse clinics
- Cardiac Intervention Suite, providing the following procedures:
 - Coronary angiograms
 - Left & right heart studies
 - Coronary intervention & CTO
 - Balloon valvuloplasty
 - PFO/ASD closure
 - Pacemaker, ICD and CRT implants

- Electrophysiology studies, 3D mapping and RF and Cryo ablation
- TAVI
- Cardiac Physiology Service includes:
 - Pacing/ICD follow up service
 - Cath Lab, Implants and EP
 - Exercise Tolerance Testing
 - Ambulatory monitoring – Holters, Events and BP
 - Electrocardiography
 - Electrophysiology
 - Echocardiography
 - Training Provisional Cardiac Physiologists, Cardiac Physiology Technicians and other Health Care staff
- Cardiac Surgery (part of Surgical Directorate)

Clinical Physiology provides a full range of diagnostic testing as an integral part of the Cardiology Service. Capital, Coast and Hutt Valley Cardiology Services are jointly accredited as an SCT training facility.

Purpose of the role

The Cardiac Physiology Service is a team of Cardiac Physiology Technicians and Cardiac Physiologists who work closely with physicians, administration and support staff to provide a high quality, efficient and patient-focused service for both inpatients and outpatients.

The role of a Cardiac Physiologist is to perform all cardiac diagnostic tests to a high standard, ensuring the needs of patients accessing the Cardiology Service are fulfilled.

A Cardiac Physiologist performs:

- 12 lead ECG
- Exercise Stress testing
- Ambulatory monitoring, fitting and analysis
- Cardiac device implant and follow up, including remote follow up
- Hemodynamic Monitoring in the Cath Lab and operates specialized equipment such as:
 - Defibrillator
 - Temporary pacemaker
 - Intra-aortic balloon pump
 - Pressure wire studies
- Electrophysiology studies, including 3D mapping
- Assist with resuscitation in patients with cardiac arrest
- On call duties as rostered

Inherent in the practice of this role is being patient focused and maintaining professional standards. Ongoing education and training is essential to gain and maintain a level of knowledge, training and expertise to meet the required competency standards.

The Cardiac Physiologist achieves an in-depth knowledge and understanding of all technical and support tasks and participates in training as required. They may need to perform other duties as required to meet operational needs, such as administrative support work and providing cardiac diagnostic services to any of the Capital, Coast and Hutt Valley sites.

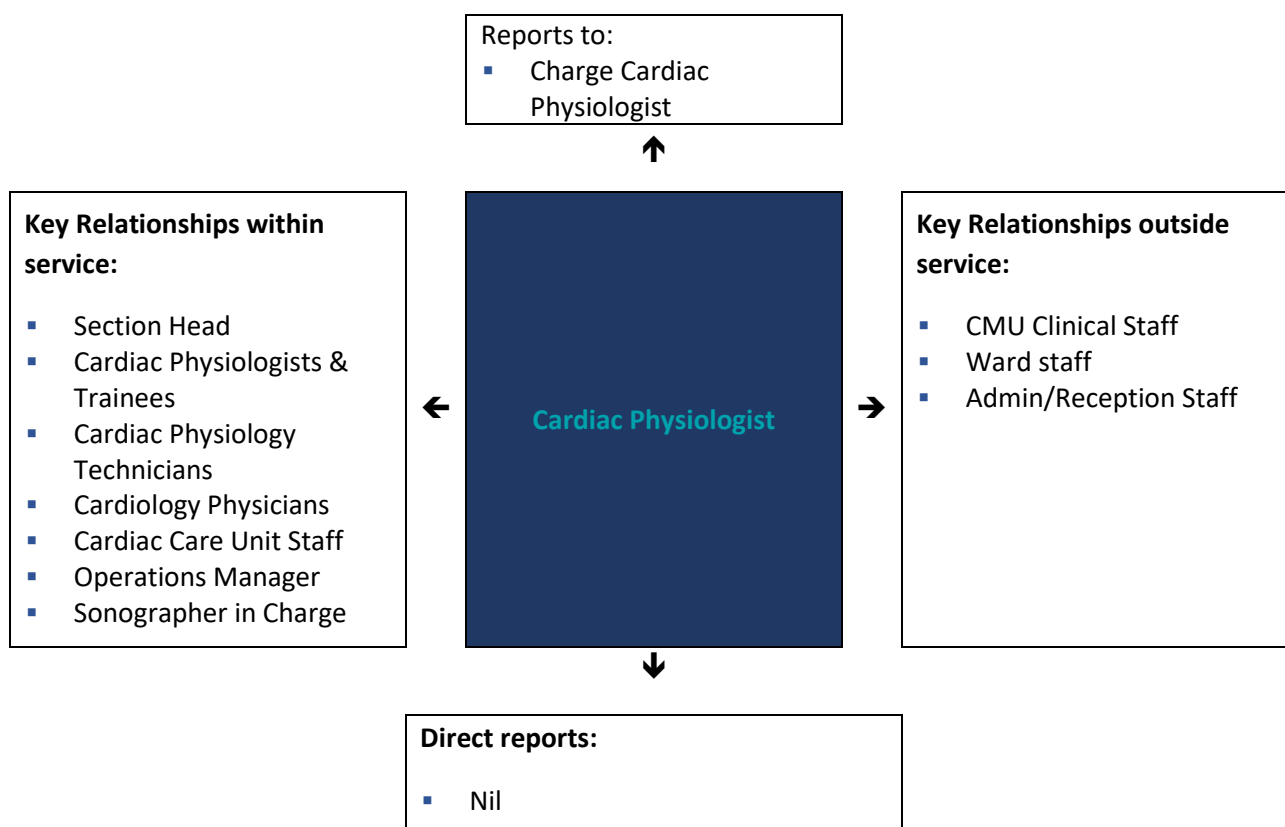

Key Accountabilities

The following role accountabilities may evolve with organisational change and there may be additional duties, relevant to this position that will be required to be performed from time to time.

<i>Key Accountability</i>	<i>Deliverables / Outcomes</i>	<i>Key Performance Indicators</i>
1. Patient Care	<ul style="list-style-type: none"> Complies with Te Whatu Ora policy and procedures, including Code of Conduct Demonstrates respect for patients' rights, comfort and confidentiality Ensures informed consent is adhered to where appropriate Encourages patient participation in procedures as appropriate Demonstrates cultural sensitivity in dealings with patients and their families/ significant others Promotes customer satisfaction 	<ul style="list-style-type: none"> Patients choose to have their cardiac tests, whilst understanding the reason for the test Has positive patient feedback Minimal number of complaints directly relating to an individual's activities Observation by other team members describes an ability to relate well to patients and staff Follows processes for handling patient results and information
2. High Quality Diagnostic Testing	<ul style="list-style-type: none"> Consistently meet SCT competency standard for competencies within scope of practice Follows all internal processes and guidelines for practice Efficient service delivery Patient focused 	<ul style="list-style-type: none"> All recordings are accurate and of as high quality as possible. Testing work and related tasks are performed in a timely manner Test results are acted upon as quickly as they demand, e.g. provided to requesting clinicians and/or patient records as clinical significance dictates
3. Maintaining Equipment & Supplies & Service	<ul style="list-style-type: none"> Equipment, supplies and testing rooms and team areas are maintained and stocked Maintains current knowledge of correct technical operation of equipment, working within written operational guidelines/procedures Contributes positively to equipment maintenance & cleaning programmes Ensures equipment is maintained in good working order 	<ul style="list-style-type: none"> Machines and testing rooms are left clean & ready for their next users Recordings are technically correct Equipment failures are immediately reported Performs equipment-user testing & calibration when required Only uses equipment that meets electrical safety test standard Stock exhaustion does not occur

<i>Key Accountability</i>	<i>Deliverables / Outcomes</i>	<i>Key Performance Indicators</i>
4. Communication	<ul style="list-style-type: none"> • Effective & professional communication with all staff, patients, families and others regarding clinical care, in accordance with policies and procedures • Attends and participates in regular team meetings • Recognises and uses communication systems appropriately, e.g. paper processes, interpreter services • Ensures information given to others is accurate, up-to-date and recognises ethical, cultural, professional and statutory requirements • Seeks clarification from appropriate others if uncertain of intent of meaning of communications • Written and oral work-related communications are clear, with essential information conveyed 	<ul style="list-style-type: none"> • Other staff and/or patients know what is happening and what they are required to do • Tasks are expedited • Is aware of dynamic processes, improvements, activities within the service • Achieves satisfactory rating in customer satisfaction surveys • Minimal number of complaints directly relating to an individual's activities • Paperwork is accurate and ends up in the correct places • Deals with differences of opinion in a timely, positive and non-confrontational manner • Conflicts are quickly and effectively resolved • Sound working relationships are established and maintained • Reports convey essential information without unnecessary complexity and are succinct
5. Quality Improvement	<ul style="list-style-type: none"> • Actively participates in quality improvement activities • Understands and uses Reportable Event system • Participates in audit activities when required 	<ul style="list-style-type: none"> • Provides input toward development of new processes • Reportable Events are completed where appropriate • Audit work is evident
6. Hazard & Risk Management / Minimisation	<ul style="list-style-type: none"> • Complies with responsibilities under the Health & Safety in Employment Act 1992 • Actively contributes to risk minimisation activities within the service • Actively participates in hazard identification and management processes • Actively supports and complies with health and safety policy and procedures • Proactively reports and remedies any unsafe work conditions, accidents & injury 	<ul style="list-style-type: none"> • Has read and understood health and safety policy and procedures • Practices role safely • Practices within Infection Control guidelines • Is aware of risks relevant to the service • Team Leader is made aware of new risks and updated with risk management initiatives in practice
7. Education	<ul style="list-style-type: none"> • Maintains the education standard of a Cardiac Physiologist • Participates in ongoing professional development • Maintains CPR Core Skills • Active involvement in departmental & relevant external education and equipment training sessions • Provides clinical supervision to junior colleagues 	<ul style="list-style-type: none"> • Attendance at education/training is recorded for Annual Practising Certificate (APC) folder • Meets requirements of APC • Has knowledge of core Cardiac Physiology competencies and other testing within scope of practice • Passes CPR Core skills training and completes the refresher workshop every 2 years • Is up-to-date with professional standards

Key Relationships & Authorities
