Directorate	Community, Older Adults and Allied Health
District	Capital, Coast & Hutt Valley
Responsible to	ORA Kenepuru Community Team Leader
Children's Act 2014	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
Location	Community Health Services Building, Kenepuru Hospital Campus

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

Mana whakahaere Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.

Mana motuhake Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.

Mana tāngata Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.

Mana Māori Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

The Vision, Mission and Values from our District

We bring forward and join our values within our district. These will change as we become a team of teams within Te Whatu Ora.

Hutt Valley

Vision

Whanau Ora ki te Awakairangi: Healthy people, healthy families and healthy communities are so interlinked that it is impossible to identify which one comes first and then leads to another.

Mission

Working together for health and wellbeing.

Ō mātou uara – Values

Mahi Pai 'Can do': Mahi Tahi in Partnership: Mahi Tahi Te Atawhai Tonu Always caring and Mahi Rangatira being our Best

Capital and Coast

Vision

Keeping our community healthy and well

Mission

Together, Improve the Health and Independence of the People of the District

Value

Manaakitanga – Respect, caring, kindness
Kotahitanga – Connection, unity, equity
Rangatiratanga – Autonomy, integrity, excellence

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Service Perspective

Older Adult, Rehabilitation and Allied Health (ORA) Services are provided to people of all ages in inpatient, outpatient and community settings. This role is part of the ORA Community service which works out of 3 community bases in Wellington, Porirua and Paraparaumu. These inter disciplinary teams work with all people who meet the eligibility criteria in the Capital and Coast District, which runs from Seatoun in Wellington to Peka Peka Road on the Kapiti Coast, and out to Horokiwi in the east of the district.

The Community ORA service provides specialised allied health, medical and nursing interventions including:

- Comprehensive assessment, treatment and if required, specialist rehabilitation for people with personal health conditions, or disabilities.
- Provision of assessment, treatment and if appropriate, rehabilitation for older people with complex needs.
- Timely responses to prevent avoidable admissions or support safe transitions from acute or sub-acute care
- Work with person and their family / whanau to understand the impact of and response to living with disability / health conditions
- Work with the person, family / whanau in identifying appropriate goals and providing education, support and interventions aimed at reversing or minimising impairment and self-managing their ongoing health and disability issues
- Provision of assessment and intervention for clients with a palliative diagnosis.
- Provide rehabilitation under specific ACC contracts – Training for Independence, Concussion services, ACC regulations, Wheelchair and Seating and Social Rehabilitation
- Provide accredited Equipment Assessments on behalf of Enable NZ for equipment , wheelchair and seating products and housing modifications
- Assessment for the need for hospital level care.
- Follow up assessment and intervention where indicated, for patients who live in residential care facilities and where there is potential to improve the person’s function such that they could access a lower level of care.
- Advice to residential staff to assist in maintaining a client’s level of function.

Clinical specialty/area

Clinical skills

This community role is based in the Kenepuru Community ORA team and works with people living in the Northern Wellington suburbs and Porirua area (From Ngaio in the south to Pukerua Bay in the north and across to Newlands in the east).

As well as providing home visits, occupational therapists may also see patients in an outpatient setting as indicated.

The occupational therapist will predominantly work individually and alongside their interdisciplinary team colleagues (including allied health assistants) with people with a range of personal health conditions and disabilities including post-acute admissions, people at risk of falls, frailty, neurological conditions, end stage progressive neurological conditions, and people with palliative prognosis. A compensatory approach is used.

The occupational therapist may also work within the rehabilitation stream of the community ORA team when required. This entails working both individually and alongside their IDT colleagues (including allied health assistants) with people with a range of personal health conditions and disabilities including survivors of stroke, post traumatic injury, people at risk of falls, frailty, neurological conditions, mild to moderate dementias and amputees. A rehabilitation approach is used with these patients.

The occupational therapist is often one of several health professionals working across the health sector that interfaces with each person. The team aims to work collaboratively and seamlessly with other services to meet the person’s needs, taking into account the principles of the New Zealand triple aim.

Purpose of the role

An occupational therapist (third year of practice onwards) provides safe and clinically effective patient/client assessment and intervention, within a specific clinical area with a development of more in depth knowledge and skills.
