<b>Children's Act 2014</b>	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
<b>Location</b>	This position is expected to work from Wellington Hospital (primary site).

## Te Whatu Ora

---

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

## Context

---

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Te Wao Nui, the Child Health Service for the Wellington Region and Central New Zealand based in the new purpose built children's hospital on the Wellington Regional Hospital campus, supports babies to adolescents with medical conditions or who may need paediatric surgery. It provides both hospital and outpatient services.

Women's Health Services provide tertiary level maternity care in Wellington and Hutt Regional Hospitals and a Primary Birthing Unit in Kenepuru. The provision of services from Women's Health encompass community-based primary LMC care and breastfeeding support, and tertiary level obstetrics, gynaecology, and other specialist services.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

## Te Tiriti o Waitangi and Māori Health Outcomes

---

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

<b>Mana whakahaere</b>	Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
<b>Mana motuhake</b>	Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
<b>Mana tāngata</b>	Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
<b>Mana Māori</b>	Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

## Te Mauri o Rongo

---

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

### Wairuatanga

Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

### Rangatiratanga

As organisations we support our people to lead. We know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

### Whanaungatanga

We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together.

### Te Korowai Āhuru

A cloak which seeks to provide safety and comfort to the workforce.

## District Responsibility

---

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

## Group Perspective

---

The Hospital Operations Group is one of six within Capital, Coast and Hutt Valley district's provider services. Services and specialties within the group range from primary to tertiary level with service provision for the district, the central Region and wider Regions. The group operates from three sites across the district including Wellington Regional, Hutt and Kenepuru hospitals.

The key areas of focus for the Hospital Operations Group are:

- To ensure effective patient flow across all sites and regionally
- To provide timely diagnostics and accurate reporting across all Radiology Services
- To maintain a responsive Emergency Department Service which strives to meet clinical demands in a timely manner and in accordance with national KPIs.
- To deliver high quality Intensive Care Services to the local district and the region
- To lead the management of emergency responses at a local level.
- To strengthen a quality and patient safety culture through an effective clinical governance model
- To maintain effective administrative support to all clinical areas
- To develop new models of care to manage hospital demand and flow supporting best use of Inpatient bed resources and to ensure the safe management of people with complex healthcare needs
- To lead expanded collaboration with Hutt Valley and Wairarapa to establish wider regional clinical services.

## Team/Service Perspective

---

The Intensive Care Services is committed to the provision of excellent and appropriate care within a multidisciplinary team. The service will support openness, honesty, communication and the dynamic professional development of all team members.

Wellington Hospital is the tertiary referral centre for the lower North Island and upper South Island of New Zealand. This gives us a catchment population of approximately 1,100,000 and a geographic radius of 300km.

Wellington Hospital's ICU supports six public hospitals that have intensive care units and one hospital that does not. To manage such a large area, we run a busy Flight Service.

Wellington ICU currently has 24 bed spaces. We look after paediatrics, neurosurgical, trauma, cardiothoracic, vascular, renal, general medical and surgical patients. We don't currently manage burns or plastics in our

hospital, nor spinal injuries but are involved in their transfers to the centres that do. We are planning a significant expansion that will increase our capacity to 28 ICU-capable bed spaces, supported by a new High Dependency Unit with up to 12 new beds. The new HDU will operate as a 'closed' unit, under the direction of ICU medical and nursing staff.

New Zealand has one dedicated paediatric intensive care unit in Auckland (700km north) in Starship Hospital. We manage most paediatrics (100-150 per year) but refer the very young and very sick on to them.

Wellington ICU treats about 1850 patients each year accounting for about 120,000 patient hours; 30% of these are elective admissions and include 400 cardiothoracic patients. The median length of stay for patients is 38 hours, which reflects the acuity of those we admit, especially when electives are factored in. We ventilate 65% of admissions and have a mortality rate of approximately 8%. We are a busy unit with a wide range of patients and severity of illnesses.

## Purpose of the role

---

The Registered Nurse (RN) role is to meet the needs of people and whanau accessing our services using contemporary nursing care which is safe, appropriate and effective. The care is based on comprehensive assessment, ensures continuity, and is person/whānau centred, culturally appropriate and evidence-based. Quality improvement and patient safety is an important part of this role.

The RN will respond to the changing needs of the DHB, performing other tasks as required. The RN is expected to contribute to the implementation of District and nursing goals and values, and to promote Te Whatu Ora – Health New Zealand Capital, Coast and Hutt Valley as a centre of excellence for nursing practice.

All nurses employed by Te Whatu Ora will have Registration with the New Zealand Nursing Council and maintain a current annual practising certificate as a Registered Nurse. Advancement onto the Te Whatu Ora Professional Development and Recognition Programme (PDRP) at competent, proficient or expert level is required.

It is the nurse's responsibility to ensure that they attend the generic orientation, yearly core competencies and maintain area-specific competency requirements. They will access policy and procedures through Capital Docs and work within the Te Whatu Ora Nursing and Midwifery standards & criteria of care and professional practice.

## Key Accountabilities

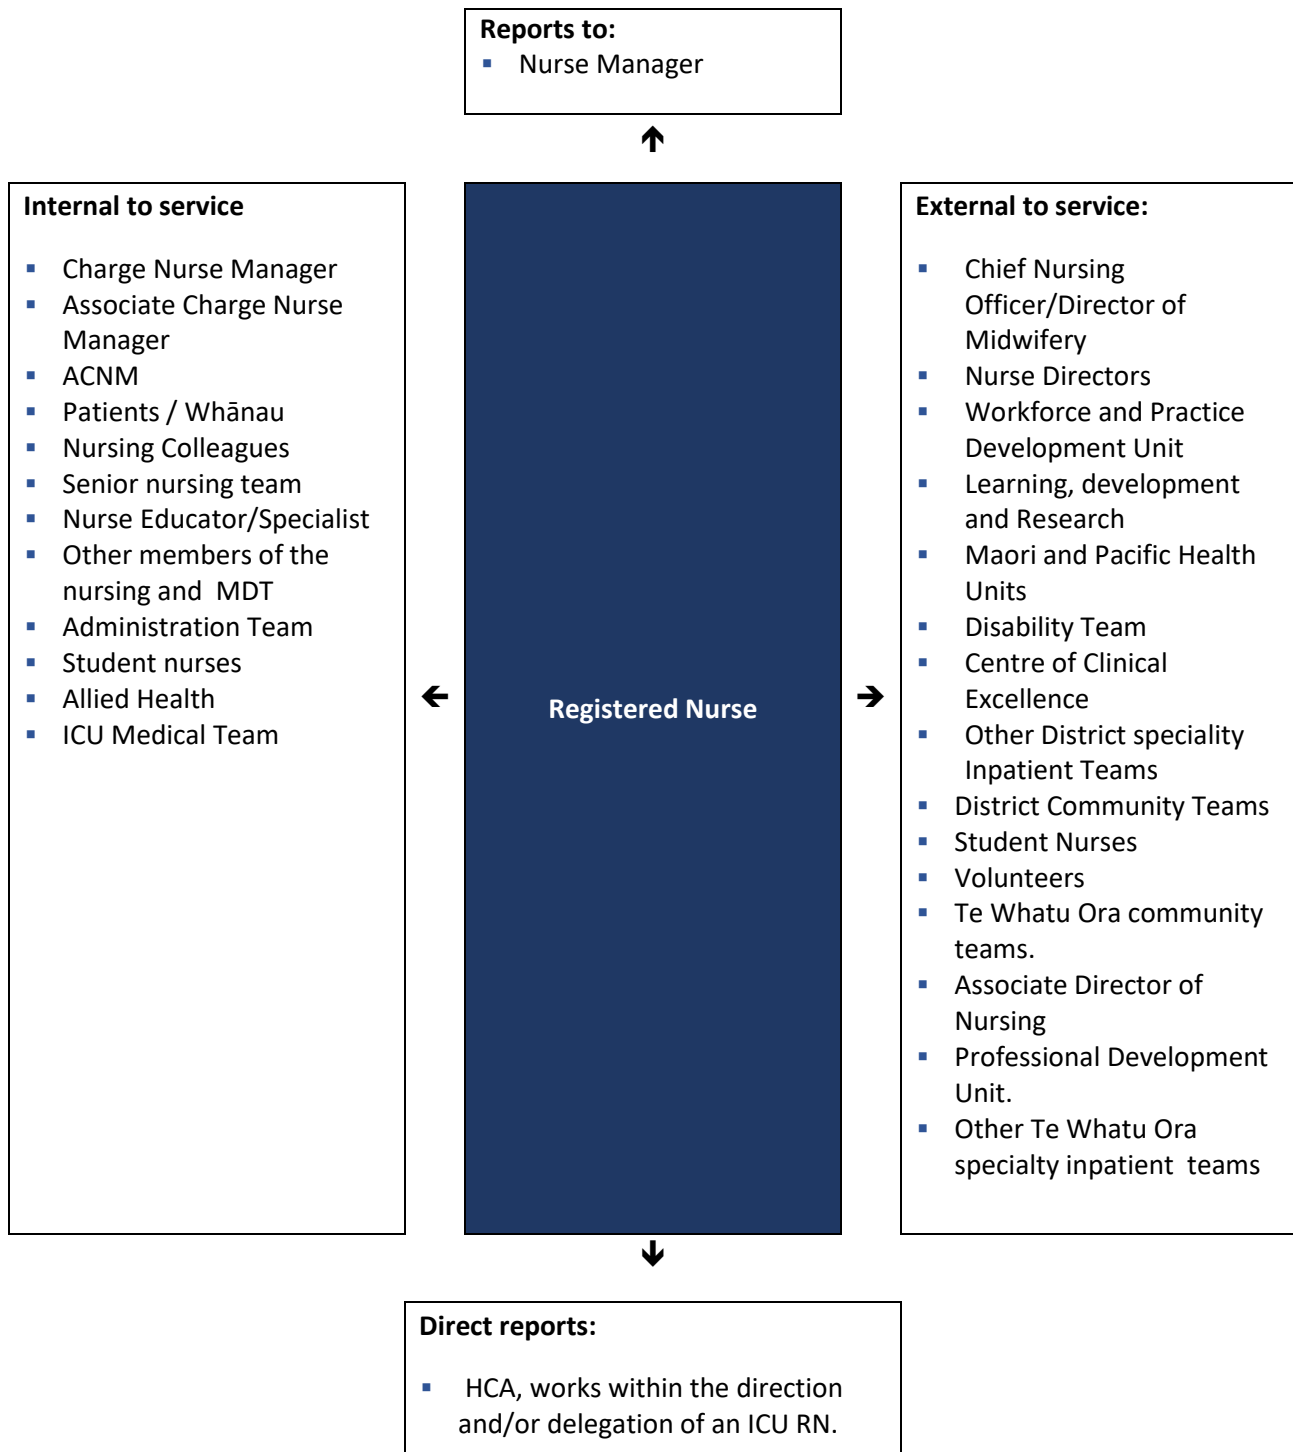

The following accountabilities derive from competencies outlined by Nursing Council of New Zealand. Competence is the combination of skills, knowledge, attitudes, values and abilities that underpin effective performance as a nurse.

In this Role Description the terms person or patient are used to refer to those who use health services, who in different settings may be referred to as tangata whaiora, health consumer or client.
