Directorate	Mental Health, Addiction & Intellectual Disability Service
District	Capital, Coast, Hutt Valley & Wairarapa districts
Responsible to	Clinical Director, Intellectual Disability Service
Children's Act 2014	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
Location	Porirua, with travel across the districts required from time to time

Health New Zealand | Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people with the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical, surgery and mental health and intellectual disability hospital services alongside community based health care

- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kāpiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Te Wao Nui, the Child Health Service for the Wellington Region and Central New Zealand based in the new purpose-built children's hospital on the Wellington Regional Hospital campus, supports babies to adolescents with medical conditions or who may need paediatric surgery. It provides both hospital and outpatient services.

Women's Health Services provide tertiary level maternity care in Wellington and Hutt Regional Hospitals and a Primary Birthing Unit in Kenepuru. The provision of services from Women's Health encompasses community based primary Lead Maternity care and breastfeeding support, and tertiary level obstetrics, gynaecology, and other specialist services.

Kenepuru Community Hospital and Kāpiti Health Centre provide secondary and community services based in Porirua and the Kāpiti Coast.

MHAIDS is the mental health, addiction and intellectual disability service for the Wairarapa district and Capital, Coast & Hutt Valley district, with multiple specialist facilities. The service holds national contracts, some of which are delivered in other district localities. Our inpatient forensic, rehabilitation and intellectual disability units are located on the Rātonga Rua-o-Porirua campus.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- Mana whakahaere** Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
- Mana motuhake** Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
- Mana tāngata** Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
- Mana Māori** Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy and customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

The Vision, Mission and Values from our District

We bring forward and join our values within our district. These will change as we become a team of teams within Te Whatu Ora.

Hutt Valley

Vision

Whanau Ora ki te Awakairangi: Healthy people, healthy families and healthy communities are so interlinked that it is impossible to identify which one comes first and then leads to another.

Ō mātou uara – Values

Mahi Pai 'Can do': Mahi Tahi in Partnership:
Mahi Tahi Te Atawhai Tonu Always caring and
Mahi Rangatira being our Best

Mission

Working together for health and wellbeing.

Capital and Coast

Vision

Keeping our community healthy and well

Mission

Together, Improve the Health and
Independence of the People of the District

Value

Manaakitanga – Respect, caring, kindness
Kotahitanga – Connection, unity, equity
Rangatiratanga – Autonomy, integrity,
excellence

Wairarapa

Vision

“Well Wairarapa – Better health for all”

Value

Manaakitanga – Respect, caring, kindness

Auaha – Solutions, responsibility, better

Kotahitanga – Connection, unity, equity

Rangatiratanga – Autonomy, integrity, excellence

Mission

To improve, promote, and protect health status of the people of the Wairarapa, and the independent living of those with disabilities, by supporting and encouraging healthy choices.

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and Health NZ | Te Whatu Ora policy.

Health NZ | Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

Sector Perspective

The hospital and health services of the districts provide a range of services, one such group of services includes the Mental Health, Addiction and Intellectual Disability (MHAID) Service. The Service has over 1400 employees and annual revenue of \$135m.

MHAIDS spans two districts - Wairarapa, Capital, Coast and Hutt Valley and includes local, regional, and national services. The local MHAID services are provided from multiple sites within the sub-region – greater Wellington, Hutt Valley and Wairarapa. Te Korowai Whāriki services include regional forensic and rehabilitation services covering the Central region while the intellectual disability services have Central region and national services.

The core business of the service is the provision of quality specialist services, integrated with primary and secondary providers in the communities we serve.

The Service is committed to the underlying principles of:

- Te Tiriti o Waitangi as the founding document of Aotearoa/New Zealand
- He Ara Oranga
- Mental Wellbeing Long Term Pathway
- Whakamaua – Māori Health Action Plan 2020-2025
- The New Zealand Disability Strategy: Making a World of Difference – Whakanui Oranga
- Intellectual Disability High and Complex Framework

The service has access to business support expertise, including People and Culture, and Finance. In addition, management and delivery of clinical services across the service is underpinned by consultation, advice, and support from a range of cultural, consumer, and family advisors, and business, quality and organisational development personnel.

Group Perspective

Regional Forensic and Rehabilitation Inpatient Mental Health Service is a regional and national service provider with its own unique identity and stakeholders. Staff are based in various locations in the Central Region, from Gisborne to Whanganui through to Wellington. Te Korowai Whariki services are both inpatient and community based.

Regional Forensic and Rehabilitation Inpatient Mental Health Service:

The role of the Regional Forensic and Rehabilitation Inpatient Mental Health Service at Te Korowai Whariki is to provide inpatient and outpatient care for both youth and adult clients. The service's inpatient buildings are mainly located on the grounds of what was once Porirua Hospital, and have been given the name of Rātonga-Rua-O-Porirua, translating to "The Two Services of Porirua",

There are four specific areas of provision within the Regional Forensic service delivery model. These are the Courts, Prisons, Inpatient setting and Community. The forensic service works closely with the justice system to provide secure assessment, treatment and rehabilitation services for mentally ill offenders, alleged offenders, or adolescents who pose a high risk of offending.

The Central Regional Forensic Mental Health Inpatient Service is based on the Rātonga-Rua-O-Porirua campus. The acute forensic inpatient service consists of two medium secure units: Purehurehu (male only unit) and Rangipapa (mixed gender unit). Pukeko and Saunders House are step-down forensic cottages attached to Rangipapa unit. The regional forensic service also provides step-down beds in the Inpatient Rehabilitation Service at Rātonga Rua-o-Porirua (Tawhirimatea and Tane Mahuta). In addition, there are 16 medium secure forensic Extended-Care beds at Stanford House in Whanganui. These beds are for forensic clients who have complex rehabilitation needs and who continue to require a high level of observation, intensive treatment and secure care over an extended period. All of the people admitted into the inpatient area are compulsorily detained under either the Mental Health (Compulsory Assessment & Treatment) Act 1992 and/or the Criminal Procedure (Mentally Impaired Persons) Act 2003.

The Regional Rehabilitation and Extended Care Inpatient Service (RRS) is a 24-hour service on Rātonga-Rua-o-Porirua campus. It includes two units, each with a different rehabilitation focus:

- Tāwhirimātea is a specialised inpatient unit that focuses on recovery and extended rehabilitation for up to 29 people who need a higher level of support within a closed environment.
- Tāne Mahuta specialises in intensive rehabilitation in an open 14-bed inpatient setting and eight self-contained cottages adjacent to the main building. The cottages range from single to five-bed accommodation; they provide an environment focused on supporting individual independence and give people the opportunity to experience a flatting situation.

There is one unit located at Kenepuru Community Hospital in Porirua. The National Secure Youth Forensic Inpatient Mental Health Service, Nga Taiohi is a 10-bed purpose-built, specialist unit for the treatment of Rangatahi (young people) aged 13 to 17 who are severely affected by mental ill-health (some with co-morbid alcohol or other drug issues), who have offended or are alleged to have offended, and who are involved in New Zealand's youth justice system.

The Central Regional Forensic Community Mental Health Service covers the Central region. This includes Wellington, Manawatu, Whanganui, Hawkes Bay, Wairarapa and Tairāwhiti regions. The Five Regional adult forensic community teams (FCT), provide psychiatric in-reach care to 5 Regional prisons; court liaison work to 15 adult (including domestic violence/special circumstances) courts and 11 youth courts, and to community clients who require supervision and support by virtue of their status as Special Patients.

Purpose of the role

The functions of the Clinical Leader role are diverse, but include providing leadership in relation to clinical matters, ensuring the maintenance of an effective clinical governance structure, implementation of quality and patient safety improvement measures, addressing complaints and medico-legal matters, oversight of recruitment to key clinical positions, ensuring that credentialing of medical staff occurs, and providing support and advice when concerns are raised regarding the working conditions, performance, conduct, or health of clinicians.

The Clinical Leader leads their service in partnership with the Operations Manager. Together, they will be responsible for all activities required to drive and sustain a tāngata whaiora and whānau centred culture, in which the values of our organisation are lived and realised.

The Clinical Leader reports to the Clinical Director for the Regional Forensic and Rehabilitation Inpatient Service (RFRIS) and supports them to develop and implement high quality and sustainable clinical services within the Service. The Principal Clinicians operating within the service report to the Clinical Leader.

The Clinical Leader RFRIS Services works in collaboration with the Senior Medical Officers and medical workforce, Allied Health Professional Leads/Experts, Cultural leaders, Service Kaumatua and Whaea, Lived Experienced Advisors, Associate Nurse Director, Clinical Nurse Specialist, Team Leaders, Service Educator and relevant internal and external stakeholders, to implement and maintain high quality and sustainable clinical services consistent with the Regional Forensic and Rehabilitation Inpatient Services Model of Care.

The Clinical Leader is a key contributor to both the senior leadership group and the Service Clinical Governance Group. The Clinical Leader has a mandate to drive best practice across clinical teams and all disciplines within the operational group.

Other key relationships include partnerships with primary care, NGOs, and other providers operating regionally, as well as with the other related positions across MHAIDS.

Key Deliverables and Competencies

- Relationships: the importance of fostering and maintaining productive and professional relationships with other leaders and managers, as well as with clinical and administrative staff within the Forensic and Rehabilitation services, cannot be overstated. It is also essential to work collaboratively with other staff and services within MHAIDS and to interact in a flexible and professional manner with healthcare providers outside of MHAIDS. This includes primary care, NGOs, and other local, regional, and national services. The Clinical Leader values, understands, and supports the strengths and contributions of all clinical disciplines.
- Working with the Operations Manager and other clinical, cultural and operational leaders on the development and delivery of clinical services that enable better outcomes for all, particularly Māori and Pacific peoples.
- Providing clinical expertise and support to colleagues from all disciplines. This includes providing clinical advice when difficult situations arise, providing second opinions, contributing to complex case reviews, contributing to Special patient Reviews, and managing disputes between clinicians or services when these arise.
- Providing effective advice and support to the Clinical Director and service leadership to meet clinical objectives.
- Working with the Clinical Director Regional Forensic and Rehabilitation Inpatient Services on the development, design and delivery of clinical services, including the Model of Care, developing practice competency frameworks, designing and implementing clinical initiatives, and leading the design and delivery of the Regional Forensic and Rehabilitation Inpatient Services suite of planned therapeutic programmes in consultation with internal and external stakeholders.
- Alongside the Associate Nurse Director, Clinical Nurse Specialist, Allied Health leads and appropriate operational equivalent, leading high quality clinical practice in Services, monitoring the integrity of clinical practices within the operational area ensuring that we meet clinical objectives.

- Managing formal complaints, responses to the District Inspectors, the Coroner, or to the HDC, assisting with other clinico-legal matters when these arise.
- Responding to reportable events, participation in the serious event review (SER) process, taking a leading role in clinical governance, service development, innovation, and quality improvement activities.
- Providing strong and professional clinical leadership; managing supervision of key clinical staff; taking a role in credentialing and performance appraisals of clinical staff; taking a lead with recruitment to key clinical positions; addressing concerns regarding performance and conduct of staff; managing interactions with healthcare registration bodies; contributing to effective management of organisational changes as they relate to, or impact on, clinical staff within the operational group, responding to industrial matters and managing interactions with unions.

Key Accountabilities

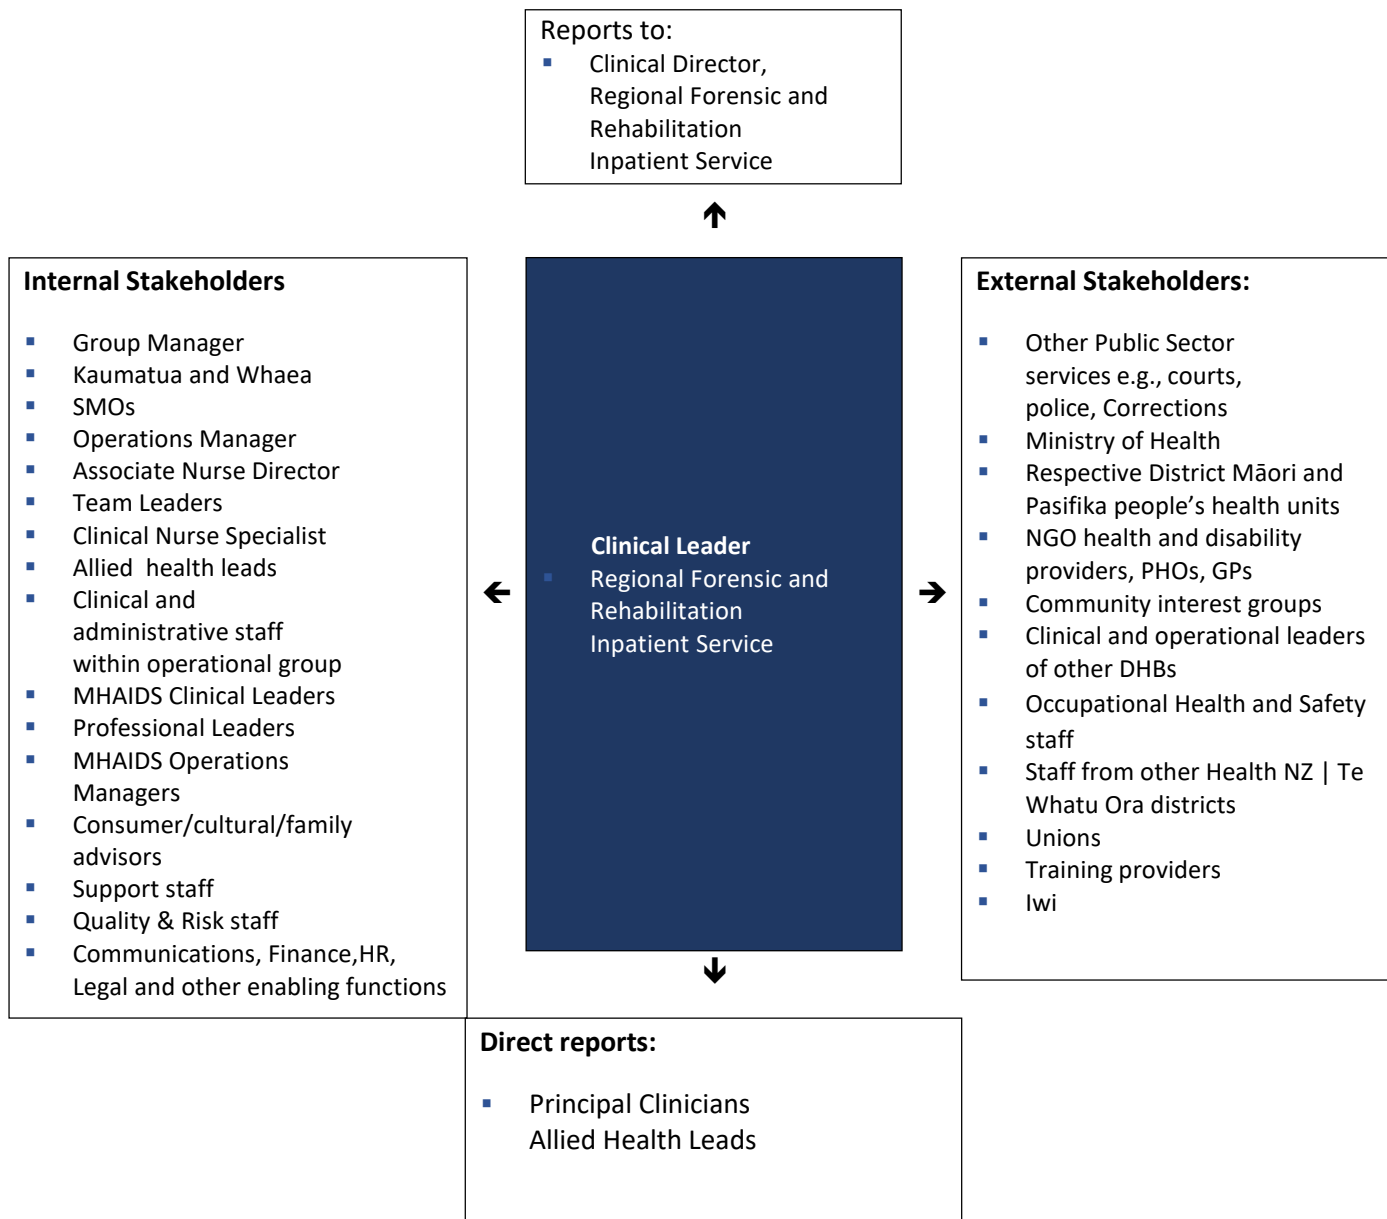

The following role accountabilities may evolve with organisational change and there may be additional duties, relevant to this position that will be required to be performed from time to time.

Key Accountability	Deliverables/Outcomes	Key Performance Indicators/Measures
1. Leadership	<ul style="list-style-type: none"> Lead by example to champion and drive clinical development initiatives Be a visible leader within MHAIDS Build and foster a change culture and capability to achieve flexibility, resilience and the achievement of sustainable change outcomes Provide information, support, feedback and development to enhance organisational performance Encourage and support decision making at point of impact Initiate, monitor and implement clinical initiatives within the Forensic and Rehabilitation Service, ensuring alignment with broader MHAIDS organisational strategy and goals Represent the service at regional and national forums if required Identify systemic clinical issues and contribute to improving clinical practice Lead change in clinical practice 	<ul style="list-style-type: none"> Has positive and regular interaction with the operational area staff, ensuring provision of useful information and fostering an inclusive culture Provision of strategic advice to the Clinical Director on the implication of plans, discussion documents and policies Change programmes and work streams are well led, facilitated and managed ensuring good staff and union engagement, delivery and embedding of change outcomes Ensures decisions are made in line with MHAIDS plans and policies Active participation in RFRIS senior Leadership group, service committee, special patient reviews and steering group meetings as required. Key Relationships & Authorities

Capability Profile

Solid performance in the role requires demonstration of the following competencies. These competencies provide a framework for selection and development.

Competency	Behaviours
Strategic Agility	<ul style="list-style-type: none"> Sees ahead clearly Can anticipate future consequences and trends accurately Has broad knowledge and perspective Is future orientated Can articulately paint credible pictures and visions of possibilities and likelihoods Can create competitive and breakthrough strategies and plans
Partnership with Māori	<ul style="list-style-type: none"> Understands the principles of Te Tiriti o Waitangi and how these apply within the context of health service provision Applies the notion of partnership and participation with Māori within the workplace and the wider community Promotes and participates in targeting Māori health initiatives by which Māori health gains can be achieved Implements strategies that are responsive to the health needs of Māori
Integrity and Trust	<ul style="list-style-type: none"> Is widely trusted Is seen as a direct, truthful individual Can present the unvarnished truth in an appropriate and helpful manner Keeps confidences and admits mistakes Doesn't misrepresent her/himself for personal gain
Problem Solving	<ul style="list-style-type: none"> Uses rigorous logic and methods to solve difficult problems with effective solutions Probes all fruitful sources for answers Can see hidden problems Is excellent at honest analysis Looks beyond the obvious and doesn't stop at first answers
Managing Vision & Purpose	<ul style="list-style-type: none"> Communicates a compelling and inspired vision or sense of core purpose Talks beyond today Talks about possibilities Is optimistic Creates milestones and symbols to rally support behind vision Makes the vision sharable by everyone Can inspire and motivate entire units or organisations
Planning	<ul style="list-style-type: none"> Accurately scopes out length and difficulty of tasks and projects Sets objectives and goals Breaks down work into the process steps Develops schedules and task/people assignments Anticipates and adjusts for problems and roadblocks Measures performance against goals Evaluates results
Dealing with Ambiguity	<ul style="list-style-type: none"> Can effectively cope with change Can shift gears comfortably Can decide and act without having the total picture Isn't upset when things are up in the air Doesn't have to finish things before moving on Can comfortably handle risk and uncertainty

Intellectual Horsepower	<ul style="list-style-type: none"> ▪ Is bright and intelligent ▪ Deals with concepts and complexity comfortably ▪ Described as intellectually sharp, capable, and agile
Drive for Results	<ul style="list-style-type: none"> ▪ Can be counted on to exceed goals successfully ▪ Is constantly and consistently one of the top performers ▪ Very bottom-line oriented ▪ Steadfastly pushes self and others for results
Motivating Others	<ul style="list-style-type: none"> ▪ Creates a climate in which people want to do their best ▪ Can motivate many kinds of direct reports and team or project members ▪ Can assess each person's hot button and use it to get the best out of him/her ▪ Pushes tasks and decisions down
Interpersonal Savvy	<ul style="list-style-type: none"> ▪ Relates well to all kinds of people – up, down, and sideways, inside and outside the organisation ▪ Builds appropriate rapport ▪ Builds constructive and effective relationships ▪ Uses diplomacy and tact ▪ Can diffuse even high-tension situations comfortably ▪ Uses supervision in a timely fashion in accordance with Health NZ Te Whatu Ora policy

Experience and Capability

Essential qualifications, skills and experience

A. Knowledge, Skills & Experience:

- Has held a senior clinical role of this nature in the health sector, preferably in the Regional Forensic and Rehabilitation inpatient service.
- Has extensive knowledge of delivery of Regional Forensic and Rehabilitation inpatient services with strengths in the following areas:
 - Regional Forensic and Rehabilitation inpatient service delivery.
 - The legal and ethical frameworks that underpin Forensic and Rehabilitation inpatient services.
 - Equity issues in the delivery of health services
 - Te Ao Māori and, specifically, bicultural models of healthcare.
- Has operated within a complex environment, including meeting the needs of multiple organisations at the same time.
- Has experience of managing a clinical operation effectively.
- Provision of strategic interpretation and leadership for the vision, strategy and delivery of assigned responsibilities within annual plans.
- Successful experience in managing internal and external relationships with an assortment of Stakeholders, with demonstrated management success in building relationships and gaining the support and participation of key individuals and groups.
- Successful experience in leading staff during times of change and change management.
- Demonstrated ability to find common ground and solve problems for the good of all, represent his/her own interests and yet be fair to other groups, solve problems with peers with a minimum of noise, gain trust easily and support peers and encourage collaboration.

B. Essential Professional Qualifications / Accreditations / Registrations:

- Relevant tertiary level qualification in a clinical discipline (medicine, nursing, psychology, social work, occupational therapy, etc).
- A registered practising clinician.
- A full and clean Drivers Licence.
- Registered to work in New Zealand.
- Ability to consent to a full screening and Police Vetting Check under the Vulnerable Children's Act (2015).

C. Someone well-suited to the role will place a high value on the following:

- Valuing the contribution of others.
- Managing stakeholder relationships.
- Pro-active management to achieve outcomes.
- Devolution of decision-making.
- A commitment to contribute at a strategic level.
- A commitment to promote primary and secondary clinical research in MHAIDS.

Ma tini, ma mano, ka rapa te whai
By joining together, we will succeed

Health NZ | Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all employees.
