

## Position Description

<b>Position</b>	Charge Nurse Manager (CNM)
<b>Team / Service</b>	<b>Diabetes and Endocrine Service</b>
<b>Directorate</b>	Sub Speciality Medicine
<b>District</b>	Capital, Coast & Hutt Valley (CCHV)
<b>Responsible to</b>	Operations Manager, Sub Speciality Medicine
<b>Children's Act 2014</b>	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
<b>Location</b>	This position is expected to work from Hutt Valley, Wellington, Kenepuru, and Kāpiti campuses

## Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

## Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

## Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- |                        |  |
|------------------------|--|
| <b>Mana whakahaere</b> | Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.  |
| <b>Mana motuhake</b>   | Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.       |
| <b>Mana tāngata</b>    | Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.  |
| <b>Mana Māori</b>      | Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge). |

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

## The Vision, Mission and Values from our District

---

We bring forward and join our values within our district. These will change as we become a team of teams within Te Whatu Ora.

### Hutt Valley

#### Vision

Whanau Ora ki te Awakairangi: Healthy people, healthy families and healthy communities are so interlinked that it is impossible to identify which one comes first and then leads to another.

#### Mission

Working together for health and wellbeing.

#### Ō mātou uara – Values

Mahi Pai 'Can do': Mahi Tahi in Partnership: Mahi Tahi Te Atawhai Tonu Always caring and Mahi Rangatira being our Best

### Capital and Coast

#### Vision

Keeping our community healthy and well

#### Mission

Together, Improve the Health and Independence of the People of the District

#### Value

Manaakitanga – Respect, caring, kindness  
Kotahitanga – Connection, unity, equity  
Rangatiratanga – Autonomy, integrity, excellence

## District Responsibility

---

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

## Team/Service perspective

---

The vision for the CCHV Diabetes and Endocrine Service is to be a centre of excellence empowering health professionals, patients and their whānau to maximise their ability to self-manage their diabetes or endocrine related health.

The service has four inter-related components:

1. Endocrine specialist care
2. Diabetes specialist care

### 3. Specialist diabetes community management and support nursing service

### 4. Diabetes Research Centre

The services target prevention, assessment and complex clinical management of high risk populations. These services all work with primary providers within the district by offering consultation and support to manage complex cases that are referred to them.

Services are delivered over four locations: Hutt Valley Hospital, Kāpiti Health Centre, Kenepuru Hospital, and Wellington Regional Hospital.

Initiatives supporting optimal diabetes and endocrine specialist knowledge across the care continuum to address challenging complex care situations and achieving better service integration for patients and their families with diabetes and endocrine related conditions is a service priority, as is the high risk Maori and Pacific people who need improved access to quality collaborative primary and specialist input.

## Purpose of the role

The Charge Nurse Manager (CNM) position is responsible for the effective management of the Diabetes and Endocrine service, at all locations: Hutt Valley Hospital, Kāpiti Health Centre, Kenepuru Hospital, and Wellington Regional Hospital.

The CNM will do this through managing and leading the people, systems, processes and resources that facilitate clinically safe, efficient and effective service delivery across the service.

The CNM will provide clinical and professional leadership to the team, continuously developing the nursing service and team, ensuring quality standards are met and contributing to the strategic direction for the service and organisation.

One of the outcomes of the role are to improve the health and well-being of patients and whānau, in an environment that promotes excellence in care and education, inspiring staff to reach their full potential.

The CNM will respond to the District's changing needs, performing other tasks as required. The CNM is expected to contribute to implementing District initiatives and nursing goals and values, while promoting Te Whatu Ora Capital, Coast and Hutt Valley as a centre of excellence for nursing practice.

## Key Accountabilities

The following accountabilities are in addition to Te Kaunihera Tapuhi o Aotearoa | Nursing Council of New Zealand (NCNZ) competencies for registered nurses (RN). Competence is the combination of skills, knowledge, attitudes, values and abilities that underpin effective performance as a designated senior nurse. The CNM is expected to be Senior on the Professional Development and Recognition Programme (PDRP).

In this Position Description the terms person or patient are used to refer to those who use health services, who in different settings may be referred to as tangata whaiora, health consumer or client.
