| Children's Act 2014 | This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years |
| Location | This position is expected to work from Wellington Regional Hospital |

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers

- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

Mana whakahaere Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.

Mana motuhake Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.

Mana tāngata Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.

Mana Māori Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

Te Mauri o Rongo – The New Zealand Health Charter

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

| | |
|-------------------------|---|
| Wairuatanga | Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi. |
| Rangatiratanga | As organisations we support our people to lead. We will know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all. |
| Whanaungatanga | We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together. |
| Te Korowai Āhuru | A cloak which seeks to provide safety and comfort to the workforce. |

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Team/Service Perspective

Older Adult, Rehabilitation and Allied Health (ORA) Service provides care to people of all ages in inpatient, outpatient and community settings. This role is part of the ORA Inpatient Physiotherapy Team and provides services to people in all clinical areas at Wellington Regional Hospital.

Wellington Regional Hospital is one of 5 major tertiary hospitals in New Zealand and provides a comprehensive range of specialist secondary and tertiary services. Kenepuru Hospital provides health of the older person, rehabilitation and some elective surgical services.

The broader inpatient Allied Health Team is comprised of Physiotherapists, Occupational Therapists, Speech Language Therapists, Dietitians, Social Workers, Psychologists and Allied Health Assistants.

Wherever possible the disciplines work closely with each other and with nursing and medical colleagues to provide integrated care for the people we see. The team has strong relationships with other areas of Health New Zealand/Te Whatu Ora, NGO providers, Community ORA and outpatient services.

Purpose of the role

A **physiotherapist** (third year of practice onwards) provides safe and clinically effective patient/client assessment and intervention, within a specific clinical area with a development of more in depth knowledge and skills.

Registration with the Physiotherapy Board of New Zealand and a valid Annual Practicing Certificate are essential requirements of the role.

Clinical Specialty and Skills

The Physiotherapist in this role will work with people admitted to Wellington Hospital. The clinical responsibilities of this role will span the range of our acute inpatient service. The role will provide care to patients on our acute wards, according to service need and skill set, alongside advanced, experienced and rotational physiotherapists.

The Physiotherapist will mentor and support rotational staff and undergraduate students to support the development of clinical skills, as well as routinely supporting colleagues in other clinical areas as the need arises. Participation in rostered weekend and overnight on call work, covering Wellington Regional Hospital, is a requirement of this role.

This role requires comprehensive physiotherapy assessment and treatment skills to meet the physiotherapy needs of patients in a variety of inpatient clinical settings and multidisciplinary teams. Established clinical skills in treating a variety of acute general medical and oncology presentations are required. Management of the acutely deteriorating patients and complex discharge planning is also expected to be part of the role.

Works in other areas as identified or following a reasonable request in order to support the organisation in managing safe patient care and maintaining service delivery.

Key Accountabilities

The following role accountabilities may evolve with organisational change and there may be additional duties, relevant to this position that will be required to be performed from time to time.

| Key accountabilities | Deliverables / Outcomes |
|----------------------|--|
| 1. Clinical Practice | <ul style="list-style-type: none">▪ Takes legal and professional responsibility for managing own caseload of patients / clients with increasing complexity and be able to independently adapt and make decisions regarding physiotherapy intervention.▪ Utilises information available to prioritise patients/clients to enable appropriate allocation of referrals and workload with staff in the team.▪ Carries out comprehensive assessment with patients (and whānau where appropriate) This may include use of standardised assessments to assist in assessment and intervention planning.▪ Formulates and delivers individualised physiotherapy intervention using comprehensive clinical reasoning skills and in depth knowledge |

of treatment approaches. This should, take into account the patient's own goals and those of the wider multidisciplinary team (MDT).

- Demonstrates effective communication, to establish a therapeutic relationship and set expectations with patients / clients, whānau and the MDT, inclusive of the wider health team and external agencies as appropriate. This includes relaying complex, sensitive and contentious information.
- Assesses the patient's understanding of assessment, interventions and goals and gain informed consent for intervention, taking into account those who lack capacity (e.g. those with cognitive difficulties).
- Regularly reassesses and evaluates the patient / client's progress against identified goals and adjust intervention as situations change.
- Refers on to other services to work with the patient/client towards achievement of longer term goals.
- Develops comprehensive discharge / transfer plans as appropriate.
- Carries out regular clinical risk assessments for patients/ clients on own caseload and takes action to effectively manage identified risks, seeking support where appropriate.
- Demonstrates provision of culturally safe and bicultural practice with patients and their whānau.
- Demonstrates an awareness of health inequalities, with evidence of implementing actions within own clinical practice towards reducing these for the patient/client and/or whānau.
- Represents the service and / or individual patients/clients at clinical meetings and case conferences to ensure the delivery of a coordinated multidisciplinary service and to ensure physiotherapy is integrated into the overall intervention (where appropriate) including discharge planning.
- Completes documentation consistent with legal and organisational requirements.
- Adheres to any applicable recognised best practice for physiotherapy and any relevant clinical policies and practice guidelines.
- Provides advice, teaching and instructions to patients, carers, relatives and other professionals to promote consistency of support being delivered.
- Demonstrates awareness of local, sub-regional and regional context in relation to provision of health and social support and the impact on service provision.
- Identifies unmet needs of patients and identifies potential solutions to address these needs.
- Demonstrates an understanding of the roles of the multidisciplinary team.

| | |
|--|--|
| <p>2. Teaching & Learning</p> | <ul style="list-style-type: none"> ▪ Maintains competency to practice through identification of learning needs and Continuing Competency (CPD) activities. This should comply with professional registration requirements. ▪ Contributes to training within the team/service. ▪ Supervises, educates and assesses the performance of physiotherapy students. ▪ Provides interdisciplinary education in direct clinical area, or discipline specific teaching across teams. ▪ Demonstrates the ability to critically evaluate research and apply to practice. ▪ Maintains an awareness of current developments in the clinical areas being worked in and make recommendations to changes in practice. ▪ Be involved in the induction and training of newly appointed staff as required. ▪ Completes mandatory training as applicable for the role. ▪ Participates in an annual performance review and associated clinical assurance activities. ▪ Participates in regular professional supervision in line with the organisations requirements and/or professional body. ▪ Provides mentoring and clinical support and / or professional supervision where required. |
| <p>3.
