

Position Description

Position	Health Care Assistant
Team / Service	Integrated Operations Centre
Group	Hospital Flow
District	Capital, Coast & Hutt Valley
Responsible to	Nurse Manager. Integrated Operations Centre
Children's Act 2014	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
Location	This position is expected to work from Wellington Regional Hospital and Kenepuru Community Hospital.

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

- The health system will reinforce Te Tiriti principles and obligations
- All people will be able to access a comprehensive range of support in their local communities to help them stay well
- Everyone will have equal access to high quality emergency and specialist care when they need it
- Digital services will provide more people the care they need in their homes and communities
- Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Te Wao Nui, the Child Health Service for the Wellington Region and Central New Zealand based in the new purpose built children's hospital on the Wellington Regional Hospital campus, supports babies to adolescents with medical conditions or who may need paediatric surgery. It provides both hospital and outpatient services.

Women's Health Services provide tertiary level maternity care in Wellington and Hutt Regional Hospitals and a Primary Birthing Unit in Kenepuru. The provision of services from Women's Health encompass community-based primary LMC care and breastfeeding support, and tertiary level obstetrics, gynaecology, and other specialist services.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- Mana whakahaere** Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
- Mana motuhake** Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
- Mana tāngata** Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
- Mana Māori** Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

Te Mauri o Rongo

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

Wairuatanga

Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

Rangatiratanga

As organisations we support our people to lead. We know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

Whanaungatanga

We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together.

Te Korowai Āhuru

A cloak which seeks to provide safety and comfort to the workforce.

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

Group Perspective Directorate perspective

The key areas of focus for the Hospital Flow Group are:

- To ensure effective and efficient patient flow across all sites and regionally
- To implement a productive operating theatre model that captures efficiencies and delivers highest levels of service.
- To provide timely diagnostics and accurate reporting across all Radiology modalities
- To maintain a responsive ED service which strives to meet clinical demands in a timely manner and in accordance with national KPIs
- To deliver high quality ICU services to the local district and the region
- To lead the management of emergency responses.
- To strengthen a quality and patient safety culture through an effective clinical governance model
- To maintain effective administrative support to all clinical areas
- To develop new models of care to manage hospital demand and flow supporting best use of Inpatient bed resources and ensure the safe management of people with complex healthcare needs
- To support clinical efficiencies and the effectiveness of clinical supply use across the whole Directorate
- To ensure in the expenditure areas of Nursing Labour, Medical Labour and Management/Administration Labour that we are within benchmark of Health New Zealand.

Team/Service Perspective

The Integrated Operations Centre provides a comprehensive clinical and operational service 24/7. The service has two arms; clinical and operational. The clinical one includes the Patient at Risk Team, Transit Care and Lounge, Flight and Retrieval teams. The operational arm comprises the Bureau and includes the Duty Nurse Manager team. In normal working hours the service will support the Directorates to meet their targets and plans and after hours will hold the delegated authority of the Directorates to ensure the effective running of the hospitals. The key areas of focus for the Integrated Operations Centre are:

- To lead and develop new models of care as well as new ways of working across the health system between primary, community, and secondary care settings
- To strengthen a quality and patient safety culture through an effective clinical governance framework
- The establishment of sustainable work force models within the Directorate
- To ensure improved financial performance in line with the DHB's financial recovery plan

- To develop new models of care to manage hospital demand and flow supporting best use of Inpatient bed resources and ensure the safe management of people with complex healthcare needs
- To participate in the Integrated Collaborative Care priorities as they relate to the Directorate and support the provision of better, sooner, more convenient services.

The operational arm comprises:

The Bureau

- Recruitment of casual, part time and full time permanent staff and special task forces to assist with resourcing across all sites
- Booking and deployment of Bureau staff for service areas
- Agency liaison and contract monitoring
- Professional development and preceptoring of Bureau staff
- Monitoring and reporting on trends and volumes in Bureau supplied staff

Duty Nurse Manager Team

- 24/7 service responsibility for patient flow co-ordination, reporting trends and volumes in bed management
- Facility management after hours (1530 – 0800 weekdays and 0800 – 0800 weekends)
- Emergency response after hours
- Deployment and redeployment of staff to minimise risk after hours
- Provide afterhours delegated leadership from the directorates
- A RN support role is part of the team who have delegated activities assigned to them from the DNM

Care Capacity Demand Management (CCDM) and TrendCare

- TrendCare is the acuity and workload management tool used within CCDHB
- Maintenance of the system ensuring compliance, data integrity and data collection
- TrendCare support to ward staff and managers
- Visibility of data to whole of organisation
- Implementation of the CCDM programme – matching staff to patient demand within the best use of health resources
- Improving quality of care for patients, improving the work environment for staff and maximising organisational efficiency.

Purpose of the role

The HCA contributes to the successful operation of the nursing/ midwifery team by collaborating and working alongside the Inter-disciplinary team, Registered Nurse (RN) or Midwife (RM) to meet the patient/client needs. They will assist with delegated patient care, cleaning and undertake housekeeping or clerical functions. The Health Care Assistant may also be required to undertake a specific area of responsibility, as assigned by their manager.

As an unregulated healthcare worker, the Health Care Assistant (HCA) works under the direction and delegation of a Registered Nurse (RN) or Midwife (RM) and will only be delegated tasks that do not require specialised nursing/midwifery knowledge, judgement or skill. The HCA will remain responsible for their

actions, while the RN or RM is accountable for the delegation decision, assessment and evaluation of outcomes. The HCA will receive training to complete specific tasks within defined boundaries according to the service areas requirements.

Quality practice and improved patient safety is an important part of this role.

The HCA is expected to contribute to the implementation of District and nursing goals and values and to promote Te Whatu Ora – Health New Zealand Capital, Coast and Hutt Valley as a centre of excellence for nursing practice.

Key Accountabilities

Health Care Assistance (HCA) are legally accountable for their actions and accountable to their employer. They must have the appropriate skills and knowledge to undertake activities, and be working within policy and direction and delegation of a Registered Nurse or Midwife. They must be careful not to lead health consumers to believe they are a nurse when undertaking aspects of nursing care (Nursing Council of New Zealand 2011).

In this Role Description the terms person or patient are used to refer to those who use health services which in different settings may be referred to as tangata whaiora, health consumer or client.

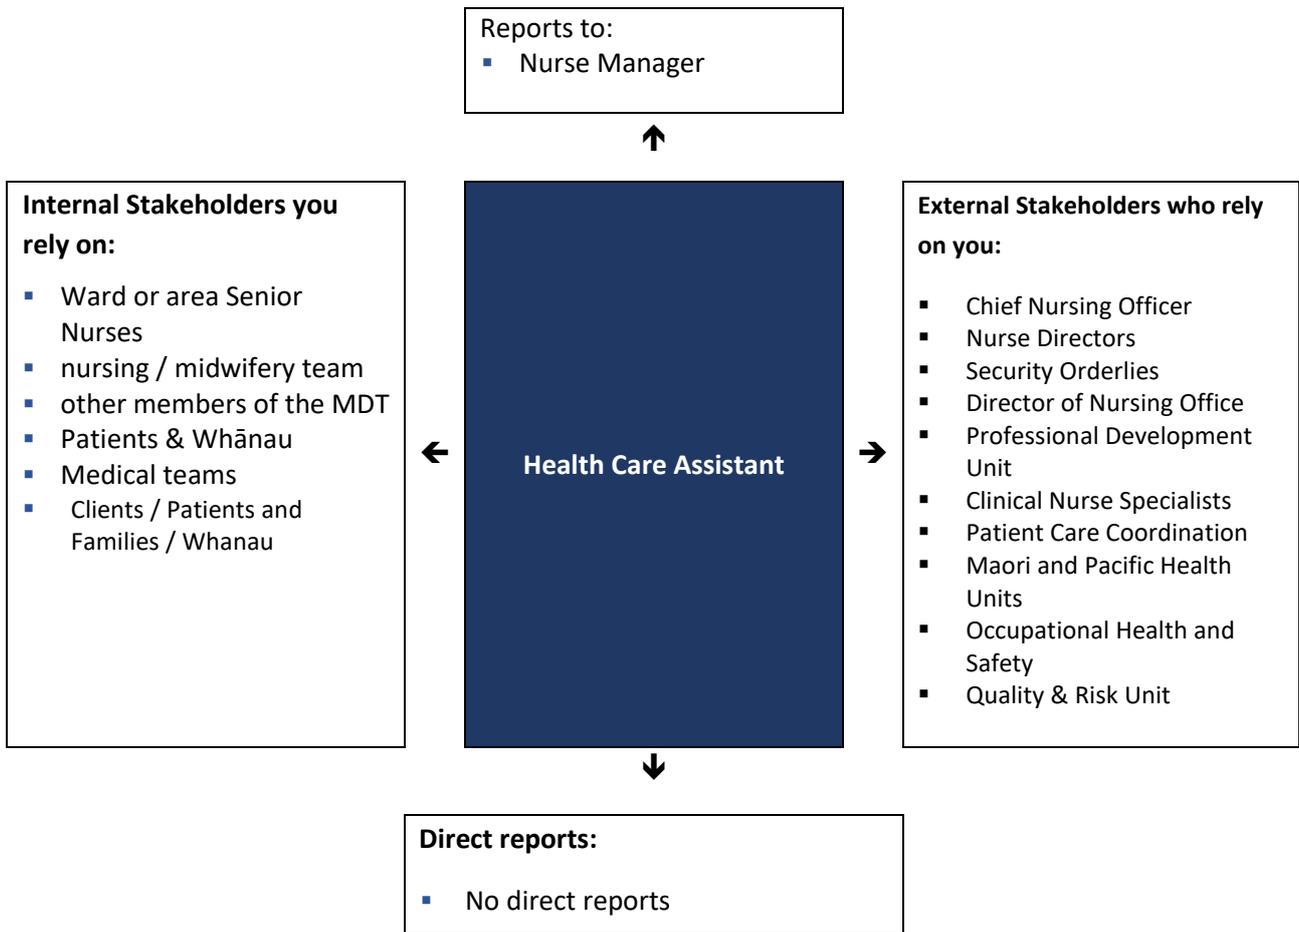

Key accountabilities	Deliverables / Outcomes
1. General accountabilities and principles of practice	<ul style="list-style-type: none"> ▪ Works under direction and delegation of a Registered Nurse or Midwife; ▪ Accepts responsibility for actions and decisions within level of skills and knowledge; ▪ Ensures they do not undertake activities requiring nursing knowledge, judgment and skill such as assessing, planning and evaluating patient care, patient health teaching and counselling, administering medications, or delegating tasks to others; ▪ Maintains a strict sense of professional ethics, confidentiality and privacy and abides by the Districts Code of Conduct; ▪ Understands and applies the Code of Health and Disability Services Consumers Rights (Code of Rights); ▪ Applies the Districts policies and processes and contributes to a culture of safe practice; ▪ Responds to the changing needs of the District, performing other tasks as required; ▪ Conducts self in a responsible and professional manner ; ▪ Demonstrates reliability and punctuality in attendance to work.
