Children's Act 2014	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
Location	This position is expected to work from Hutt Hospital site. From time to time as part of Variance Response you may be required to work in other areas.

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Te Wao Nui, the Child Health Service for the Wellington Region and Central New Zealand based in the new purpose built children's hospital on the Wellington Regional Hospital campus, supports babies to adolescents with medical conditions or who may need paediatric surgery. It provides both hospital and outpatient services.

Women's Health Services provide tertiary level maternity care in Wellington and Hutt Regional Hospitals and a Primary Birthing Unit in Kenepuru. The provision of services from Women's Health encompass community-based primary LMC care and breastfeeding support, and tertiary level obstetrics, gynaecology, and other specialist services.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- Mana whakahaere** Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
- Mana motuhake** Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
- Mana tāngata** Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
- Mana Māori** Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

Te Mauri o Rongo

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

Wairuatanga

Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

Rangatiratanga

As organisations we support our people to lead. We know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

Whanaungatanga

We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together.

Te Korowai Āhuru

A cloak which seeks to provide safety and comfort to the workforce.

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

Group Perspective

Regional Screening Services (RSS) provides free Breast Screening to all eligible women from the Wairarapa to Kapiti area servicing the needs of the wider Hutt Valley's. The Breast Centre is under the BSA contract, provides all Breast Services for the communities in Wairarapa and Hutt Valley, provides Breast Radiology services and supports the Regional Cervical Screening for women's wellness within the Greater Wellington Region and wider Regions.

The Surgical Service Group is one of six groups within Te Whatu Ora – Capital and Coast, Hutt Valley district Provider Services. Specialties within the Directorate are at secondary and tertiary level, with service provision for the district, the central Region and wider Regions. Surgical operating provision is largely across 3 hospitals (Wellington, Hutt, and Kenepuru) along with a district outsourcing plan with private providers. Outpatient clinics are held at Wellington, Hutt Valley, Kenepuru, Paraparaumu, contracted private provider sites, Marae and through 'hub and spoke' arrangements at other regional hospitals.

Team/Service Perspective

Breast Service is a multidisciplinary team consisting of breast Surgeons, radiologists, specialty clinical nurse for breast care, breast care nurses, enrolled nurse, radiographers, MIT assistants, administrators

and health promotion teams. The team provides care for patients with both benign (non-cancerous) and malignant (cancerous) breast conditions, to ensure the patients and whanau receive professional, timely and excellent care.

A key focus of RSS is to ensure;

Provide services to for BreastScreen Aotearoa (BSA) for free Breast Screening to all eligible women aged 45 to 74 years of age. Ensuring BSA clients and whanau receive professional, timely and excellent care.

A key focus of the Breast Symptomatic Service is to ensure timely access to care, particularly for patients referred under the Faster Cancer Treatment (FCT) timeframes.

The team manages a wide range of breast conditions, including:

- Breast cancer requiring surgery
- Fibrocystic disease
- Fibroadenomas
- Breast cysts
- Breast infections

The RSS is committed to equitable and high quality prevention, assessment and specialized care. Our mission is to ensure that every person in our district requiring any part of our service has equitable access to care.

We work closely with other specialists within CC/HV, and also with primary providers and contribute to regional and national work related to Breast care.

Role Purpose

The Specialty Clinical Nurse (SCN) uses in-depth knowledge to provide patient care and expertise with a practice focus on breast cancer, perioperative support and surveillance the sub-regional breast service and regional screening service. The SCN works in a specialised practice area with more knowledge and skills than an expert Registered Nurse (RN). This role enhances health outcomes for patients with symptomatic breast cancer and their whānau. The SCN ensures continuity of care from diagnosis through treatment, perioperative phases and surveillance period, acting as a central point of contact and advocate for patients and their whānau.

As a senior nurse, the SCN contributes to service specific pathways, protocols and guidelines that reflect best practice, in accordance with current evidence to ensure high levels of safe care.

The SCN Breast Care is responsible for:

- Maintaining service population based data to enhance care coordination with linkage with national breast cancer data base
- Providing nurse-led clinics for symptomatic breast including surveillance

- Contributing to the district Breast Service Multidisciplinary meeting
- Contribute to the Breast Screening Regional Data Base
- BreastScreen Central (BSC) delivering the BreastScreen Aotearoa (BSA) programme
- Advocating on behalf of patients and whanau

The SCN will respond to the changing needs of the District, performing other tasks as required. The SCN is expected to contribute to the implementation of District nursing goals and values, and to promote Te Whatu Ora – Health New Zealand Capital, Coast and Hutt Valley as a centre of excellence for nursing practice.

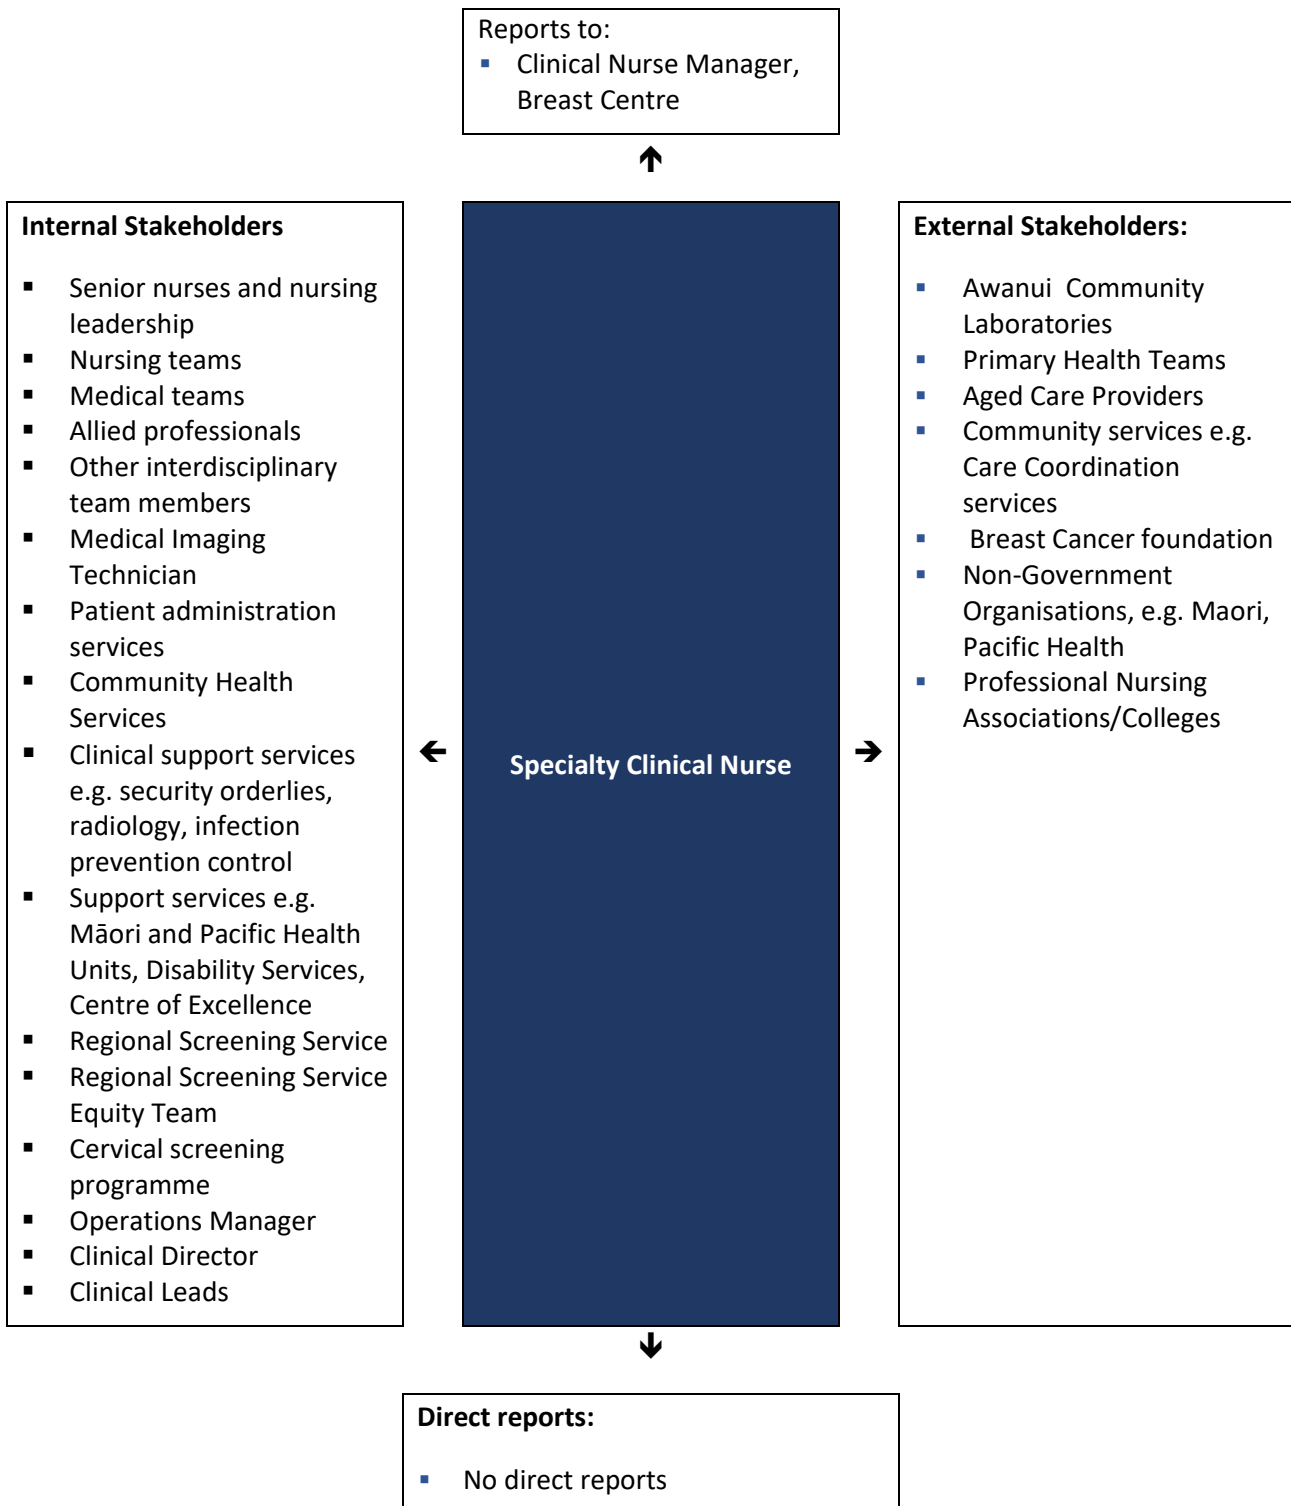

Key Accountabilities

All Registered Nurses (RN) nurses employed by Capital, Coast & Hutt Valley District will have registration with the New Zealand Nursing Council (NCNZ), will fulfil all registered nursing competencies and maintain a current RN annual practising certificate. Application onto the Professional Development and Recognition Programme (PDRP) at Senior Expert pathway is required.
