Children's Act 2014	This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years
Location	Kenepuru Community Hospital.

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Te Wao Nui, the Child Health Service for the Wellington Region and Central New Zealand based in the new purpose built children's hospital on the Wellington Regional Hospital campus, supports babies to adolescents with medical conditions or who may need paediatric surgery. It provides both hospital and outpatient services.

Women's Health Services provide tertiary level maternity care in Wellington and Hutt Regional Hospitals and a Primary Birthing Unit in Kenepuru. The provision of services from Women's Health encompass community-based primary LMC care and breastfeeding support, and tertiary level obstetrics, gynaecology, and other specialist services.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- Mana whakahaere** Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
- Mana motuhake** Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
- Mana tāngata** Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
- Mana Māori** Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

The Vision, Mission and Values from our District

We bring forward and join our values within our district. These will change as we become a team of teams within Te Whatu Ora.

Hutt Valley

Vision

Whanau Ora ki te Awakairangi: Healthy people, healthy families and healthy communities are so interlinked that it is impossible to identify which one comes first and then leads to another.

Mission

Working together for health and wellbeing.

Ō mātou uara – Values

Mahi Pai ‘Can do’: Mahi Tahi in Partnership: Mahi Tahi Te Atawhai Tonu Always caring and Mahi Rangatira being our Best

Capital and Coast

Vision

Keeping our community healthy and well

Mission

Together, Improve the Health and Independence of the People of the District

Value

Manaakitanga – Respect, caring, kindness
 Kotahitanga – Connection, unity, equity
 Rangatiratanga – Autonomy, integrity, excellence

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

Team/Service Perspective

The Allied Health Rehabilitation workforce is a dynamic team comprised of the following roles:

- Dietetics
- Social Work
- Physiotherapy
- Occupational Therapy
- Speech Language Therapy
- Psychology
- Allied Health Assistants
- Allied Health Educator for Rehabilitation
- Advanced Allied Health for Rehabilitation
- Allied Health Coordinator
- Activities Coordinator
- Team Leader

While our teams are structured around clinical practice settings (acute care, inpatient rehabilitation, community, and outpatients), we recognise that the patient journey crosses all settings of care, and teams work to ensure continuity of care and seamless transitions between clinicians. Wherever possible the disciplines work closely with each other and with nursing and medical colleagues to provide integrated care for the people we see. The team has strong relationships with other areas of the district and NGO providers, including Community ORA, outpatient services and NASC agencies.

Purpose of the role

Clinical specialty/area

This role is based in the Kenepuru Inpatient Allied Health team and works primarily in the Health of Older Persons Wards to provide input to patients and their whanau. Our Allied Health team is made up of ~45 staff, with 8 of those roles being Occupational Therapists. The Health of Older Persons wards are two wards, each with 24 beds (48 beds total). The Occupational Therapist working in the Health of Older Persons ward will oversee approximately 15 patients, and will have support from the wider team and Float Occupational Therapist to ensure that all patients within our 3 service areas are receiving equitable care.

The position will also support colleagues in other clinical areas as required by the service, including neuro-rehabilitation and orthopaedic wards.

Clinical skills

The Occupational Therapist will provide specialist occupational therapy assessments and interventions in order to identify rehabilitation / restorative goals. They will work in an inter-professional practice manner, collaboratively with the patient, colleagues and the patient's whanau to support attainment of patient goals, with the aim of achieving a safe and sustainable discharge.

Key Accountabilities

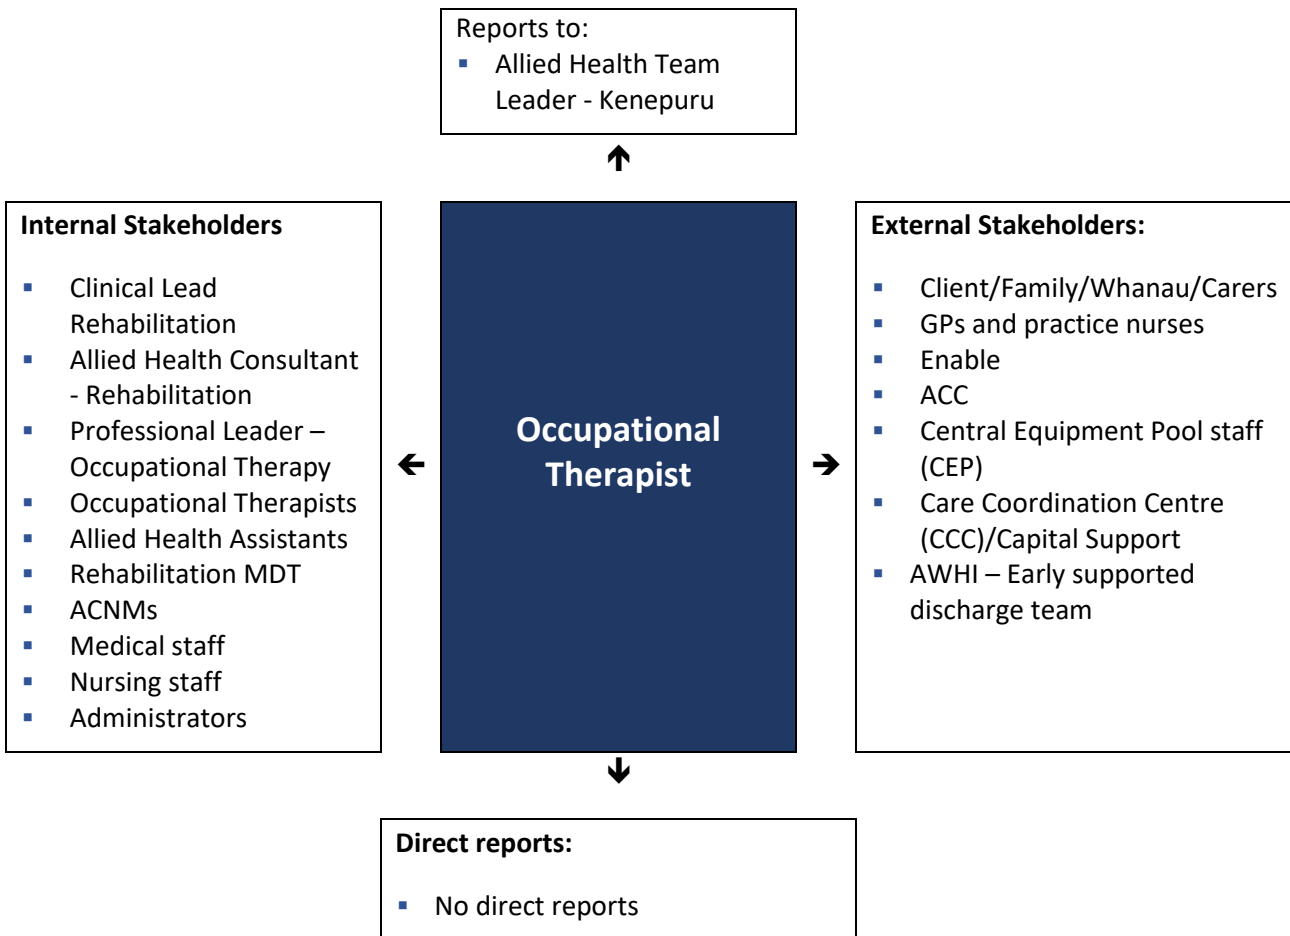

The following role accountabilities may evolve with organisational change and there may be additional duties, relevant to this position that will be required to be performed from time to time.

Key accountabilities	Deliverables / Outcomes
1. Clinical Practice	<ul style="list-style-type: none"> ▪ Takes legal and professional responsibility for managing own caseload of patients / clients with increasing complexity and be able to independently adapt and make decisions regarding Occupational Therapy intervention. ▪ Utilises information available to prioritise patients/clients to enable appropriate allocation of referrals and workload with staff in the team. ▪ Carries out comprehensive assessment with patients (and whānau where appropriate) this may include use of standardised assessments to assist in assessment and intervention planning. ▪ Formulates and delivers individualised Occupational Therapy intervention using comprehensive clinical reasoning skills and in depth knowledge of treatment approaches. This should, take into account the patient’s own goals and those of the wider multidisciplinary team (MDT). ▪ Demonstrates effective communication, to establish a therapeutic relationship and set expectations with patients / clients, whānau and the MDT, inclusive of the wider health team and external agencies as appropriate. This includes relaying complex, sensitive and contentious information. ▪ Assesses the patient’s understanding of assessment, interventions and goals and gain informed consent for intervention, taking into account those who lack capacity (e.g. those with cognitive difficulties). ▪ Regularly reassess and evaluates the patient / client’s progress against identified goals and adjust intervention as situations change. ▪ Refers on to other services to work with the patient/client towards achievement of longer term goals. ▪ Develops comprehensive discharge / transfer plans as appropriate. ▪ Carries out regular clinical risk assessments for patients/ clients on own caseload and takes action to effectively manage identified risks, seeking support where appropriate. ▪ Represents the service and / or individual patients/clients at clinical meetings and case conferences to ensure the delivery of a coordinated multidisciplinary service and to ensure Occupational Therapy is integrated into the overall intervention (where appropriate) including discharge planning. ▪ Completes documentation consistent with legal and organisational requirements. ▪ Adheres to any applicable recognised best practice guidelines and relevant clinical policies. ▪ Works in other areas as identified or following a reasonable request in order to support the organisation in managing safe patient care and maintaining service delivery.

Key accountabilities	Deliverables / Outcomes
	<ul style="list-style-type: none"> ▪ Demonstrates an understanding of the roles of the multidisciplinary team.
2. Leadership	<ul style="list-style-type: none"> ▪ Can orchestrate multiple activities at once to accomplish a goal ▪ Uses resources effectively and efficiently ▪ Arranges information and files in a useful manner ▪ Attends and contributes to relevant department, clinical and team meetings, leading and facilitating such meetings as requested. ▪ Directs and delegates work to allied health assistants and support staff as required in the role, ensuring that delegated tasks, documentation and communication is carried out.
