Location	This position is expected to work Wellington Hospital Ward 3 Acute Frailty Unit. From time to time as part of Variance Response you may be required to work in other areas.

Health New Zealand | Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Te Wao Nui, the Child Health Service for the Wellington Region and Central New Zealand based in the new purpose built children's hospital on the Wellington Regional Hospital campus, supports babies to adolescents with medical conditions or who may need paediatric surgery. It provides both hospital and outpatient services.

Women's Health Services provide tertiary level maternity care in Wellington and Hutt Regional Hospitals and a Primary Birthing Unit in Kenepuru. The provision of services from Women's Health encompass community-based primary LMC care and breastfeeding support, and tertiary level obstetrics, gynaecology, and other specialist services.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- Mana whakahaere** Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.
- Mana motuhake** Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.
- Mana tāngata** Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.
- Mana Māori** Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

Te Mauri o Rongo

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

Wairuatanga

Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

Rangatiratanga

As organisations we support our people to lead. We know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

Whanaungatanga

We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together.

Te Korowai Āhuru

A cloak which seeks to provide safety and comfort to the workforce.

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Health New Zealand | Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

Team/Service Perspective

The Acute Health of the Older Person (AHOP) service manages frail older patients that require assessment, treatment and discharge from Wellington Hospital. The geriatric model of care, aims to direct patients promptly onto the appropriate pathway. Avoiding deconditioning, ensuring early discharge planning and rehabilitation. This is provided by frequent medical review and providing care in an environment that facilitates physical and cognitive functioning and shorter length of stays.

The Wellington AHOP service has four teams:

- The Emergency Department team
- Ward 3 - The Acute Frailty Unit (AFU)
- Consult geriatric and Kenepuru Hospital Triage Team
- The Ortho-Geriatric team.

Ward 3 - Acute Frailty Unit (AFU) is an inpatient unit with 14 beds available. Of those 14 beds approximately 10 are used for admission under the Acute Frailty Unit, while the other 4 are inpatient beds supporting General Medicine patients. The Acute Frailty unit provides 24 hours a day, 7 days a week services that focuses on timely assessment, diagnosis and acute treatment planning of frail patients with a wide range of medical conditions. All of the patients admitted into this area benefit from a model of care that focuses on reducing hospital harm. This is achieved by a short length of stay, an interdisciplinary model of care that prevents patients deconditioning. The treatment plans include expected date of discharge and clinical criteria for discharge that can be facilitated by the Ward Nurses. Patients who are identified to benefit from rehabilitation or longer period of treatment at KPH will be identified early in their admission. Collaboration with Charge Nurse Manager and nurse educators at the Kenepuru hospital is essential in ensuring a whole of system response to care of the frail elderly.

Ward 3 (AFU) uses a Collaborative Nursing Model to provide enhanced patient care by:

- More efficient use of nursing resources
- Improved communication between the different members of the multi-disciplinary team
- Improved support for staff new to an area of practice
- Improved capacity to effectively utilise different skills within the nursing team.

A collaborative nursing model is a model of care delivery based on collaboration where an appropriately skilled nurse takes responsibility for leading a team. The team can accommodate different levels of nurses working together with a shared goal, to meet the comprehensive holistic care needs of a group of patients. The aim of the Collaborative Nursing Model is to utilise and develop the skills of the nurses to the fullest extent by providing a supportive learning environment. Clear guidelines and communication and reporting structures are required to enable the team to function efficiently. A Collaborative Nursing Model is based on the principles of teams and teamwork. This model is focused on the care of a variety of adult patient groups including older adults with increased supervision needs and those experiencing delirium.

Role Purpose

The Registered Nurse (RN) role is to meet the needs of people and whānau accessing our services using contemporary nursing care which is safe, appropriate and effective.

The RN works with the scope of a RN as introduced by the Nursing Council of New Zealand (NCNZ 2025). Registered nurses are accountable and responsible for their nursing practice, ensuring that all health care provided is consistent with their education, assessed competence, relevant legislative requirements and is guided by the NCNZ standards for registered nurses.

Registered nurses use substantial scientific and nursing knowledge to inform comprehensive assessments, determine health needs, develop differential diagnoses, plan care and determine appropriate interventions. Interventions are evaluated to assess care outcomes based on clinical judgement and scientific and professional knowledge.

Registered nurse practise independently and in collaboration with individuals, their whānau, communities and the interprofessional healthcare team, to deliver equitable person/whānau/whakapapa-centred nursing care across the life span in all settings. Registered nurses may also use their expertise in areas and roles such as leadership, management, education, policy and research.

The RN will respond to the changing needs of the district, performing other tasks as required. The RN is expected to contribute to the implementation of District and nursing goals and values, and to promote Health New Zealand | Te Whatu Ora Capital, Coast and Hutt Valley as a centre of excellence for nursing practice.

The RN working hours will be rostered and rotating and may work across the district as required due to patient safety and workforce necessities.

Key Accountabilities

The following accountabilities derive from standards of competence (pou) outlined by Nursing Council of New Zealand. Competence is the combination of skills, knowledge, attitudes, values and abilities that underpin effective performance as a nurse.

In this Role Description the terms person or patient are used to refer to those who use health services, who in different settings may be referred to as tangata whaiora, health consumer or client.

Pou	Descriptors
-----	-------------

<p>Pou One: Māori Health</p> <p>Reflecting a commitment to Māori health, registered nurses support, respect and protect Māori rights while advocating for equitable and positive health outcomes. Nurses are also required to demonstrate kawa whakaruruhau by addressing power imbalances and working collaboratively with Māori.</p>	<p>Descriptor 1.1 Engages in ongoing professional development related to Māori health and the relevance of te Tiriti o Waitangi articles and principles.</p> <p>Descriptor 1.2 Advocates for health equity for Māori in all situations and contexts.</p> <p>Descriptor 1.3 Understands the impact of social determinants, such as colonisation, on health and wellbeing.</p> <p>Descriptor 1.4 Uses te reo and incorporates tikanga Māori into practice where appropriate.</p>
<p>Pou Two: Cultural Safety</p> <p>Cultural safety in nursing practice ensures that registered nurses provide culturally safe care that is inclusive, responsive and equitable. This requires nurses to reflect on their practice, understand their cultural identity and the power imbalances between the nurse and the recipient of care.</p>	<p>Descriptor 2.1 Practises culturally safe care which is determined by the recipient.</p> <p>Descriptor 2.2 Challenges racism and discrimination in the delivery of nursing and health care.</p> <p>Descriptor 2.3 Engages in partnership with individuals, whānau and communities for the provision of health care.</p> <p>Descriptor 2.4 Advocates for individuals and whānau by including their cultural, spiritual, physical and mental health when providing care.</p> <p>Descriptor 2.5 Contributes to a collaborative team culture which respects diversity, including intersectional identities, and protects cultural identity by acknowledging differing worldviews, values and practices.</p>

<p>Pou Three: Whanaungatanga and Communication</p> <p>A commitment to whanaungatanga and communication requires registered nurses to establish relationships through the use of effective communication strategies which are culturally appropriate and reflect concepts such as whānau-centred care and cultural safety. An understanding of different forms of communication enables the nurse to engage with the interprofessional healthcare team, advocate for innovative change where appropriate and influence the direction of the profession.</p>	<p>Descriptor 3.1 Understands and complies with professional, ethical, legal and organisational policies for obtaining, recording, sharing and retaining information acquired in practice.</p> <p>Descriptor 3.2 Determines the language and communication needs (verbal and non-verbal) of people, whānau and communities.</p> <p>Descriptor 3.3 Incorporates professional, therapeutic and culturally appropriate communication in all interactions.</p> <p>Descriptor 3.4 Communicates professionally to build shared understanding with people, their whānau and communities.</p> <p>Descriptor 3.5 Assesses health-related knowledge, provides information and evaluates understanding to promote health literacy.</p> <p>Descriptor 3.6 Ensures documentation is legible, relevant, accurate, professional and timely.</p> <p>Descriptor 3.7 Uses appropriate digital and online communication.</p> <p>Descriptor 3.8 Provides, receives and responds appropriately to constructive feedback.</p>
<p>Pou Four: Pūkengatanga and Evidence-Informed Nursing Practice</p> <p>Pūkengatanga and evidence-informed nursing practice requires registered nurses to use clinical skills, coupled with critical thinking and informed by high quality and current evidence, to provide quality, safe nursing care. Evidence-informed practice prepares the nurse to differentially diagnose, plan care, identify appropriate interventions, lead the implementation and evaluate care provision and outcomes.</p>	<p>Descriptor 4.1 Understands the wide range of assessment frameworks and uses the appropriate framework to undertake comprehensive assessments in the practice setting.</p> <p>Descriptor 4.2 Develops differential diagnoses based on a comprehensive assessment, clinical expertise and current evidence to inform the plan of care.</p> <p>Descriptor 4.3 Implements and evaluates effectiveness of interventions and determines changes to the plan of care.</p> <p>Descriptor 4.4 Coordinates and assigns care, delegates activities and provides support and direction to others.</p>

	<p>Descriptor 4.5 Safely manages medicines based on pharmacotherapeutic knowledge, including administration in accordance with policies and best practice guidelines.</p> <p>Descriptor 4.6 Supports individual and whānau choices of complementary therapies by ensuring they have sufficient information to make informed decisions about treatment options.</p> <p>Descriptor 4.7 Understands cultural preferences for complementary treatment, such as the use of rongoā, and supports integration into care.</p> <p>Descriptor 4.8 Demonstrates digital capability and online health literacy to support individuals, whānau and communities to use technology for managing health concerns and promoting wellbeing.</p> <p>Descriptor 4.9 Applies infection prevention and control principles in accordance with policies and best practice guidelines.</p> <p>Descriptor 4.10 Identifies, assesses and responds to emerging risks and challenging situations by adjusting priorities and escalating to the appropriate person.</p> <p>Descriptor 4.11 Understands and works within the limits of expertise and seeks guidance to ensure safe practice.</p> <p>Descriptor 4.12 Maintains awareness of trends in national and global nursing to inform change in practice and delivery of care.</p>
<p>Pou Five: Manaakitanga and People-Centred Care</p> <p>Manaakitanga and people-centred care requires nurses to demonstrate compassion, collaboration and partnership to build trust and shared understanding between the nurse and people, whānau or communities. Compassion, trust and partnership underpin effective decision-making in the provision of care to support the integration of beliefs and preferences of people and their whanau.</p>	<p>Descriptor 5.1 Ensures integrated relational and whakapapa-centred care to meet the needs of people and whānau.</p> <p>Descriptor 5.2 Upholds the mana of individuals, whānau and the nursing profession by demonstrating respect, kindness, honesty and transparency of decision-making in practice.</p> <p>Descriptor 5.3 Facilitates opportunities for people and whānau to share their views and actively contribute to care planning, decision-making and the choice of interventions.</p>

	Descriptor 5.4 Establishes, maintains and concludes safe therapeutic relationships.
<p>Pou Six: Rangatiratanga and Leadership</p> <p>Rangatiratanga and leadership in nursing practice are demonstrated when nurses proactively provide solutions and lead innovation to improve the provision of care. Leadership requires all nurses to act as change agents and lead change when appropriate. Fundamental to the integration of leadership is the need for nurses to intervene, speak out, and advocate to escalate concerns on behalf of colleagues or recipients of care.</p>	<p>Descriptor 6.1 Actively contributes to a collaborative team culture of respect, support and trust.</p> <p>Descriptor 6.2 Demonstrates professional and ethical accountabilities in practice and adheres to the Nursing Council of New Zealand Code of Conduct, relevant legislation and organisational policies and procedures.</p> <p>Descriptor 6.3 Understands continuous learning and proactively seeks opportunities for professional development.</p> <p>Descriptor 6.4 Engages in quality improvement activities.</p> <p>Descriptor 6.5 Identifies and responds appropriately to risk impacting the health, safety and wellbeing of self and others to practise safely.</p> <p>Descriptor 6.6 Understands the impact of healthcare provision on global and local resources, demonstrates and supports the constant assessment and improvement of sustainability practices.</p>

In addition to meeting the above requirements, the RN will satisfy the requirements of the following accountabilities.

Key accountabilities	Deliverables / Outcomes
Health and Safety	<ul style="list-style-type: none"> Ensures that health and safety practice meets the requirements of Health and Safety at work legislation, applies the District policies and processes and contributes to a culture of safe practice.

Key Relationships & Authorities

Capability Profile

Solid performance in the role requires demonstration of the following competencies. These competencies provide a framework for selection and development.

Competency	Behaviours
Team work	<ul style="list-style-type: none"> ▪ Collaborates with fellow team members and work groups to achieve service objectives ▪ Seeks out opportunities to support others in achieving goals ▪ Recognises and respects individual differences ▪ Actively contributes to and accepts consensus decisions
Commitment to Kawa Whakaruruhau	<ul style="list-style-type: none"> ▪ Demonstrates understanding and application of the principles of Te Tiriti O Waitangi Treaty of Waitangi in nursing practice ▪ Works towards achieving equitable health outcomes for Māori ▪ Supports tangata whenua/mana whenua led change to deliver mana motuhake in the design, delivery and monitoring of health care ▪ Supports Māori oversight and ownership of decision making processes necessary to achieve Māori health equity ▪ Supports the expression of hauora Māori models of care and mātauranga Māori
Equity	<ul style="list-style-type: none"> ▪ Commits to helping all of our people to achieve equitable health outcomes ▪ Demonstrates critical consciousness and on-going self-reflection and self-awareness in terms of the impact of their own culture on interactions and service delivery ▪ Supports the dismantling of policies, procedures and practices that cause inequity ▪ Supports Māori-led responses ▪ Supports Pacific-led responses ▪ Supports Disability-focused responses
Self-Management	<ul style="list-style-type: none"> ▪ Sets high personal standards and strives to achieve goals ▪ Is proactive and displays initiative ▪ Is resilient and able to adapt to change ▪ Understands and acknowledges personal and professional limitations ▪ Ability to work to deadlines to achieve outcomes
Communication/Interpersonal Skills	<ul style="list-style-type: none"> ▪ Demonstrates compassion ▪ Empathises with others and considers their needs and feelings ▪ Actively listens, drawing out information and checking understanding

Competency	Behaviours
	<ul style="list-style-type: none"> ▪ Communicates information effectively and accurately, both orally and in writing. Adjusts style to the recipients and considers their frame of reference
Professionalism	<ul style="list-style-type: none"> ▪ Maintain a strict sense of professional ethics, confidentiality and privacy and abide by the District Code of Conduct. ▪ Is aware of professional boundaries ▪ Shows courtesy, respect, caring for people and their whānau in all aspects of nursing practice
Flexibility	<ul style="list-style-type: none"> ▪ Ability to flex within the scope of Registered Nurse practice to meet the changing needs of people and their whānau and the population ▪ Responds positively and collegially, to requests for help from other team members

Experience and Capability

Essential Professional Qualifications / Accreditations / Registrations skills and experience:

- Registration with Nursing Council of New Zealand (NCNZ)
- A current Annual Practicing Certificate (APC) and scope appropriate to place of work
- Demonstrates an understanding of the significance of and obligations under Te Tiriti o Waitangi, including how to apply Te Tiriti principles in a meaningful way in the nursing role
- A commitment to achieving equitable outcomes for Māori
- A personal commitment to on-going learning and development including attainment/maintenance of PDRP

Someone well-suited to the role will place a high value on the following

- Commitment to Te Tiriti o Waitangi
- Living the District values
- Respect and collaboration in practice
- Delivering an exemplary standard of care
- Practice informed by research evidence
- Innovation and critical thinking
- Commitment to sustainable practice

Ma tini, ma mano, ka rapa te whai
By joining together we will succeed
