Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to:

[provide safe and clinically effective patient/client assessment and intervention, with a focus on developing clinical capability with support from more experienced practitioners and leaders.

The physiotherapist in this role is one of a number of rotational physiotherapists working across different clinical areas and sites within Capital, Coast and Hutt Valley. Clinical areas include, but are not limited to, cardiothoracics, neurology, general medicine, orthopaedics, older persons, rehabilitation, respiratory, paediatrics, general surgery, community and outpatients.

Rotational physiotherapists work in outpatient, inpatient and community settings and are required to participate in rostered weekend, overtime weekend and overnight on call work.

Participation in weekend and overnight on call work is a requirement of this role. We run a 7 day a week service so weekend working, on a roster basis, will be expected as part of your core working hours.

This role will provide supported opportunities for the consolidation and development of physiotherapy clinical skills across a range of clinical settings, working with patients across the full age spectrum, from neonates to the older adult.

The ability to work autonomously and appropriately seek guidance/support as required is essential. Prioritisation, clinical reasoning and evidence based practice are key skills to bring to the role and will be supported for ongoing development.

We would welcome applicants within their first two years of practice, or who wish to move back into an acute hospital based care environment.

Work in other areas may be required, as identified, or following a reasonable request, in order to support the organisation in managing safe patient care and maintaining service delivery.

Key Result Area	Expected Outcomes / Performance Indicators
Clinical Practice	• Takes legal and professional responsibility for managing own caseload of patients / clients, with support from a more experienced therapist. • Carries out comprehensive assessment with patients (and whānau where appropriate). This may include use of standardised assessments to assist in assessment and intervention planning. • Formulates and deliver individualised physiotherapy intervention using appropriate clinical assessment, reasoning skills and knowledge of treatment approaches. This should, take into account the patient's own goals and those of the wider multidisciplinary team (MDT). • Demonstrates effective communication to establish a therapeutic relationship and set expectations with the patient, whānau and the MDT, inclusive of the wider health team and external agencies as appropriate. • Assesses the patient's understanding of assessment, interventions and goals and gain informed consent for intervention, taking into account those who lack capacity (e.g. those with cognitive difficulties). • Regularly reassesses and evaluates the patient / client's progress against identified goals and adjust intervention as situations change. • Refers on to other services to work with the patient/client towards achievement of longer term goals. • Develops comprehensive discharge / transfer plans as appropriate. • Carries out regular clinical risk assessments for patients/ clients on own caseload and takes action to effectively manage identified risks, seeking support where appropriate. • Demonstrates provision of culturally safe and bicultural practice with patients and their whānau. • Actively contributes at clinical meetings and case conferences to ensure the delivery of a coordinated multidisciplinary service and to ensure that physiotherapy is integrated into the overall intervention including discharge planning.

	• Completes documentation consistent with legal and organisational requirements. • Adheres to any applicable recognised best practice for physiotherapy and any relevant clinical policies and practice guidelines. • Provides advice, teaching and instructions to patients, carers, relatives and other professionals to promote consistency of support being delivered. • Demonstrates an understanding of the roles of the multidisciplinary team
Teaching & Learning	• Maintains competency to practice through identification of learning needs and Continuing Professional Development (CPD) activities. This should comply with professional registration requirements. • Contributes to the education of physiotherapy students as directed and delegated by student supervisors. • Maintains an awareness of current developments in the clinical areas being worked in. • Involved in the induction and training of newly appointed staff as required. • Completes mandatory training as applicable for the role. • Participates in an annual performance review and associated clinical assurance activities. • Participates in regular professional supervision in line with the organisations requirements and/or professional body.
Leadership & Management	• Attends and contributes to relevant department, clinical and team meetings • Directs and delegates work to allied health assistants and support staff as required in the role, ensuring that delegated tasks, documentation and communication is carried out.
Service Improvement and Research	• Undertakes as directed, the collection of data for use in service audit and research projects. • Participates in quality improvement activities when requested. • Contributes to annual planning process, including identifying gaps in service and participating in work / projects that may result from the planning process. • Practises in a way that utilises resources (including staffing) in the most cost effective manner. • Awareness of and complies with all legislative and contractual requirements as applicable to the role (e.g. Health and safety in Employment Act 1992, Privacy Act 1993, Vulnerable Children's Act 2014, Privacy Act, ACC service specifications etc.).
Access and Outcomes	• Supports efforts to improve access to services and achieve better outcomes for the communities we serve. • Uses evidence and insights to identify barriers and opportunities for improvement. • Contributes to inclusive, responsive, and effective service delivery.

Te Tiriti o Waitangi	• Demonstrates a commitment to understanding and applying Te Tiriti o Waitangi in a practical and appropriate way. • Supports initiatives that improve outcomes for Māori and strengthen relationships with Māori partners and stakeholders. • Contributes to an inclusive workplace that values diversity and supports the attraction, development and retention of Māori employees.
Health & safety	• Exercises leadership and due diligence in Health and Safety matters and ensures the successful implementation of Health and Safety strategy and initiatives. • Takes all reasonably practicable steps to eliminate and mitigate risks and hazards in the workplace that could cause harm, placing employee, contractor and others' health, safety, and wellbeing centrally, alongside high-quality patient outcomes. • Leads, champions, and promotes continual improvement in health and wellbeing to create a healthy and safe culture.
Compliance and Risk	• Takes responsibility to ensure appropriate risk reporting, management and mitigation activities are in place. • Ensures compliance with all relevant statutory, safety and regulatory requirements applicable to the Business Unit. • Understands, and operates within, the financial & operational delegations of their role, ensuring peers and team members are also similarly aware.
