Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to:

Use in-depth knowledge to provide patient care and expertise within the Crisis Resolution Service (CRS). The SCN works in a specialised practice area with more knowledge and skills than an expert Registered Nurse (RN). This role enhances health outcomes for tangata whaiora and their whānau, providing holistic assessment, safety planning, treatment interventions and health education.

As a specialist mental health nurse the SCN provides holistic care to tangata whaiora and whanau who are at risk of, or who are experiencing mental health conditions and substance use disorders, or behavioural challenges; to promote their physical and psychosocial well-being. The nurse emphasises the use of interpersonal relationships as therapeutic tools and uses critical thinking and clinical reasoning to consider and provide nursing care for complex physical health, psychological, social and biological aspects that influence mental health, addiction or intellectual disability. Mental Health nurses use socialisation, activation and communication as key nursing skills as well as providing psychical care and management of environmental or social challenges.

As a senior nurse, the SCN contributes to service specific pathways, protocols and guidelines that reflect best practice, in accordance with current evidence to ensure high levels of safe care.

The SCN Mental Health - CRS is responsible for:

- Providing mental health triage and assessments to determine treatment planning.
- Provides pharmacological and non-pharmacological interventions to mitigate current issues or symptoms.
- Engages with whanau or support people to ensure robust assessment and planning.
- Considers treatment options within the least restrictive environment and champions home-based and community treatment.
- Work alongside staff to provide advice/consultation for people with complex mental health presentations
- Contributes to service specific pathways, protocols and guidelines that reflect best practice, in accordance with current evidence to ensure safe care.
- Initiates and contributes to quality improvements and engages with the services Quality Coordinator
- As a specialist mental health, addiction, intellectual disability nurse your demonstration of the indicators of each Pou will be informed by the standards of practice for Mental Health Nurses: Te Ao Māramatanga.

Key Result Area	Expected Outcomes / Performance Indicators
