Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to provide urological services that will facilitate the provision of appropriate high quality urological services to patients who come under his/her care. Consultant Urology services are provided in the Urology clinical settings at Wellington, and Kenepuru Hospital. There is a large component of teaching and supporting nurses and allied health staff. Supervision and training of RMOs is an important aspect of the role.

The Urology service has a multi-disciplinary team approach with allied health, SMO, RMO and nursing input to patient care. The Clinical Leader, Urology, provides collegial leadership in achieving specific annual targets and outcomes and in identifying and implementing service development initiatives.

The Operations Manager, Surgical Services and the Clinical Leader work in partnership and are responsible for the service leadership and management including budgeting, resourcing and oversight of contract achievement as well as providing advice to the team and supporting and developing Team Leaders.

The Urology service supports patients across the Wellington District with both elective and acute care.

Key Result Area	Expected Outcomes / Performance Indicators
Clinical Duties	• To assess, diagnose and manage appropriately patients within the clinical setting in which the Consultant is working. • To be familiar with the application of all appropriate techniques, urological diagnosis, assessment and therapy. • To consult and liaise with other professionals involved with the patient. • Participate in relevant multidisciplinary team meetings discussing the care of patients. • To participate in the education of the patient and relevant others about his/her illness and treatment. • Obtain informed consent for proposed treatment/procedures. • To provide the level of service as specified in the yearly output targets. • To adhere to the protocols, guidelines and practice standards pertaining to the area of clinical practice. • To practice in a manner consistent with established ethical standards as provided by the Medical Council of New Zealand. • Take responsibility for supervising the work of registrars, house surgeons and medical students where required and for other health professionals involved in the management of the patient.
Leadership	• Leads practice innovation and initiatives. • Sets expected standard by modelling expert clinical skills and professional practice • Promotes patient management that reflects current knowledge, research and best practice. • Incorporates an awareness of broader health policies on provision of care delivery within the health system. • Responds with constructive strategies to meet new challenges and initiates/ adopts change early. • Networks with team members from a wide range of clinical disciplines, to ensure timely and effective clinical management of the patients. • Fosters and participates in peer education, peer review processes, case review and reflective practice. • Actively involved in local and national reviews of guidelines and policies for Urology.
Stakeholder engagement	• Actively work in partnership with other directorates and key stakeholders in the value for money design and delivery of effective project management services. • Constructive strategic and tactical relationships and partnerships are developed with a range of groups and individuals both internal and external to the DHBs that supports and enables problem solving and the implementation of solutions • A partnering approach is implemented to the delivery of services to the DHBs in a way that facilitates and supports shared agenda and objectives.

Continuous improvement and innovation	Actively contribute to continuous quality improvement activities within the service.
Key Result Area	Expected Outcomes / Performance Indicators
