Reports to	Charge Nurse Manager
Location	Capital, Coast & Hutt Valley(CCHV) District
Department	Medical Assessment and Planning Unit (MAPU)
Date	01-09-2026
Salary band (indicative)ⁱ	HNZ NZNO Collective Agreement
Children's Worker roleⁱⁱ	Yes

Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to:

Contribute to the successful operation of the nursing/ midwifery team by collaborating and working alongside the Inter-disciplinary team, Registered Nurse (RN) or Midwife (RM) to meet the patient/client needs. They will assist with delegated patient care, cleaning and undertake housekeeping or clerical functions. The Health Care Assistant may also be required to undertake a specific area of responsibility, as assigned by their manager. As an unregulated healthcare worker, the Health Care Assistant (HCA) works under the direction and delegation of a Registered Nurse (RN) or Midwife (RM) and will only be delegated tasks that do not require specialised nursing/midwifery knowledge, judgement or skill. The HCA will remain responsible for their actions, while the RN or RM is accountable for the delegation decision, assessment and evaluation of outcomes. The HCA will receive training to complete specific tasks within defined boundaries according to the service areas requirements.

The MAPU is a 24 bed unit, with six cardiac monitored beds, providing 24 hours a day, seven days a week timely assessment, diagnosis and acute treatment planning. MAPU is situated on level 2 of WRH, adjacent to the ED, ED Observation Unit (EDOU), Radiology, and the Clinical Measurement Unit (CMU). This allows a core of appropriately trained and skilled staff in one area to facilitate multi-disciplinary decision making as well as allowing for

rapid access to timely diagnostics and facilitating collaboration between services. The target (maximum) length of stay in the MAPU is 36 hours.

It is anticipated that approximately 50% of patients admitted to the MAPU will be discharged home or to an appropriate placement in the community. The remainder of the patients will be admitted to an appropriate hospital setting, either in the Wellington Regional Hospital or at the Kenepuru campus.

The MAPU aims to improve the quality of care for patients by streamlining the admission process, facilitating early consultant review, expediting rapid and comprehensive multidisciplinary assessment and treatment planning and improving access to investigative services such as radiology and laboratory testing. The MAPU is led and managed by medical services and is the acute admission point for most internal medicine patients within the Capital and Coast region.

The purpose of the role is to provide assistance to the health care team, by focusing on patient care and comfort by performing patient care duties, including personal cares and service activities under the direction and delegation of a RN as required.

Quality practice and improved patient safety is an important part of this role.

The HCA is expected to contribute to the implementation of District and nursing goals and values and to promote Te Whatu Ora – Health New Zealand Capital, Coast and Hutt Valley as a centre of excellence for nursing practice.

Health Care Assistants (HCA) are legally accountable for their actions and accountable to their employer. They must have the appropriate skills and knowledge to undertake activities, and be working within policy and direction and delegation of a Registered Nurse or Midwife.

They must be careful not to lead health consumers to believe they are a nurse when undertaking aspects of nursing care (Nursing Council of New Zealand 2011).

The HCA working hours will be rostered and rotating and may work across the district as required due to patient safety and workforce necessities

Key Result Area	Expected Outcomes / Performance Indicators
General accountabilities and principles of practice	• Works under direction and delegation of a Registered Nurse, Enrolled Nurse or Midwife; • Accepts responsibility for actions and decisions within level of skills and knowledge; • Ensures they do not undertake activities requiring nursing knowledge, judgment and skill such as assessing, planning and evaluating patient care, patient health teaching and counselling, administering medications, or delegating tasks to others; • Maintains a strict sense of professional ethics, confidentiality and privacy and abides by the Districts Code of Conduct;

	• Understands and applies the Code of Health and Disability Services Consumers Rights (Code of Rights); • Applies the Districts policies and processes and contributes to a culture of safe practice; • Responds to the changing needs of the District, performing other tasks as required; • Conducts self in a responsible and professional manner ; • Demonstrates reliability and punctuality in attendance to work.
