Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to:

To review, strengthen, and future proof nutrition support for patients receiving Systemic Anti-Cancer Treatment (SACT) through Wellington Blood & Cancer, including Wairarapa based patients, with a focus on:

- Building clinical knowledge and confidence in screening, identification, and management of nutrition risk, malnutrition and sarcopenia across the cancer workforce.
- Clarifying nutrition referral pathways, roles, and responsibilities across outpatient, and community settings.
- Developing clear, evidence-informed recommendations outlining the workforce and service capacity required to deliver safe, equitable nutrition care across the district.

This work will ensure nutrition pathways are clinically effective, equitable, and aligned with evolving models of care, including decentralised treatment and nutrition impacts of new cancer medicines on patients receiving treatment.

Key Result Area	Expected Outcomes / Performance Indicators
Clinical Practice	• Takes legal and professional responsibility for managing own caseload of patients / clients with increasing complexity and be able to independently adapt and make decisions regarding dietetic intervention. • Utilises information available to prioritise patients/clients to enable appropriate allocation of referrals and workload with staff in the team. • Carries out comprehensive assessment with patients (and whānau where appropriate) This may include use of standardised assessments to assist in assessment and intervention planning. • Formulates and delivers individualised dietetic intervention using comprehensive clinical reasoning skills and in depth knowledge of treatment approaches. This should, take into account the patient's own goals and those of the wider multidisciplinary team (MDT). • Demonstrates effective communication, to establish a therapeutic relationship and set expectations with patients / clients, whānau and the MDT, inclusive of the wider health team and external agencies as appropriate. This includes relaying complex, sensitive and contentious information. • Assesses the patient's understanding of assessment, interventions and goals and gain informed consent for intervention, taking into account those who lack capacity (e.g. those with cognitive difficulties). • Regularly reassess and evaluates the patient / client's progress against identified goals and adjust intervention as situations change. • Refers on to other services to work with the patient/client towards achievement of longer term goals. • Develops comprehensive discharge / transfer plans as appropriate. • Carries out regular clinical risk assessments for patients/ clients on own caseload and takes action to effectively manage identified risks, seeking support where appropriate. • Demonstrates provision of culturally safe and bicultural practice with patients and their whānau. • Demonstrates an awareness of health inequalities, with evidence of implementing actions within own clinical practice towards reducing these for the patient/client and/or whānau. • Represents the service and / or individual patients/clients at clinical meetings and case conferences to ensure the delivery

	of an integrated approach to intervention and to ensure nutrition is integrated into the overall intervention (where appropriate) including discharge planning. • Completes documentation consistent with legal and organisational requirements. • Adheres to any applicable recognised best practice for dietetics and any relevant clinical policies and practice guidelines. • Provides advice, teaching and instructions to patients, carers, relatives and other professionals to promote consistency of support being delivered. • Maintains up to date knowledge of special purpose foods, vitamins, minerals and other prescribable medications by dietitians and is competent at prescribing these. • Demonstrates awareness of local, sub-regional and regional context in relation to provision of health and social support and the impact on service provision. • Identifies unmet needs of patients and identifies potential solutions to address these needs. • Demonstrates an understanding of the roles of the multidisciplinary team. • Demonstrates an understanding of Food Service delivery and special diet management (if applicable).
Teaching & Learning	• Maintains competency to practice through identification of learning needs and Continuing Competency (CC) activities. This should comply with professional registration requirements. • Contributes to training within the team/service. • Supervises, educates and assesses the performance of dietetic students. • Provides interdisciplinary education in direct clinical area, or discipline specific teaching across teams. • Demonstrates the ability to critically evaluate research and apply to practice. • Maintains an awareness of current developments in the clinical areas being worked in and make recommendations to changes in practice. • Involved in the induction and training of newly appointed staff as required. • Completes mandatory training as applicable for the role. • Participates in an annual performance review and associated clinical assurance activities.

	• Participates in regular professional supervision in line with the organisations requirements and/or professional body. • Provides mentoring and clinical support and / or professional supervision where required.
Leadership & Management	• Attends and contributes to relevant department, clinical and team meetings, leading and facilitating such meetings as requested. • Assists team leaders and professional leaders in clinical assurance activities of dietetic staff as requested. • Directs and delegates work to allied health assistants and support staff as required in the role, ensuring that delegated tasks, documentation and communication is carried out.
Service Improvement and Research	• Broadens research and development skills through participation in local audit and research projects as identified by team leaders, professional leaders or Advanced or Expert AH professionals. • Participates in quality improvement activities to develop and improve service delivery, clinical practice or professional standards. This may include care pathways / treatment protocols, standards of practice etc. • Develops and /or participates in regional / sub regional professional networks as appropriate to area of work. • Establishes working partnerships with external organisations to promote integrated working. • Contributes to annual planning process, including identifying gaps in service and participating in work / projects that may result from the planning process. • Practises in a way that utilises resources (including staffing) in the most cost effective manner • Awareness of and complies with all legislative and contractual requirements as applicable to the role (e.g. Health and safety in Employment Act 1992, Privacy Act 1993, Vulnerable Children's Act 2014, Privacy Act, ACC service specifications etc.)

Key Result Area	Expected Outcomes / Performance Indicators
Access and Outcomes	• Supports efforts to improve access to services and achieve better outcomes for the communities we serve. • Uses evidence and insights to identify barriers and opportunities for improvement. • Contributes to inclusive, responsive, and effective service delivery.

Te Tiriti o Waitangi	• Demonstrates a commitment to understanding and applying Te Tiriti o Waitangi in a practical and appropriate way. • Supports initiatives that improve outcomes for Māori and strengthen relationships with Māori partners and stakeholders. • Contributes to an inclusive workplace that values diversity and supports the attraction, development and retention of Māori employees.
Health & safety	• Exercises leadership and due diligence in Health and Safety matters and ensures the successful implementation of Health and Safety strategy and initiatives. • Takes all reasonably practicable steps to eliminate and mitigate risks and hazards in the workplace that could cause harm, placing employee, contractor and others' health, safety, and wellbeing centrally, alongside high-quality patient outcomes. • Leads, champions, and promotes continual improvement in health and wellbeing to create a healthy and safe culture.
Compliance and Risk	• Takes responsibility to ensure appropriate risk reporting, management and mitigation activities are in place. • Ensures compliance with all relevant statutory, safety and regulatory requirements applicable to the Business Unit. • Understands, and operates within, the financial & operational delegations of their role, ensuring peers and team members are also similarly aware.

•
