Better Health, Better Care, Every Day.

Health New Zealand | Te Whatu Ora is committed to providing high-quality healthcare for all New Zealanders. We are focused on improving access to care, delivering better health outcomes, achieving national health targets, and ensuring the long-term sustainability of our health system.

We know that great healthcare starts with great people. That's why we are committed to building a high-performing, inclusive workplace where our people are supported to grow, contribute, and make a real difference for patients, whānau, and communities across Aotearoa.

About the role

The primary purpose of the role is to:

Provide specialist nursing advice, care and expertise, both in delivering direct patient care and in supporting other staff caring for Haematology patients with complex conditions/issues. The CNS practices with increased autonomy, by working at an advanced level within the RN scope of practice (Te Kaunihera Tapuhi o Aotearoa Nursing Council of New Zealand /NCNZ 2025). The focus is on assisting, directing and supporting patient care and whānau throughout the within Haematology journey. The CNS role supports excellence in practice through modelling expert clinical skills, promoting best practice, facilitating interdisciplinary collaboration and providing education. The CNS has an active role in the development and achievement of the strategic direction for the Haematology service, with a particular focus on Transplantation and Cellular Therapies.

The CNS leads development and implementation of speciality specific pathways, protocols and guidelines, in accordance with relevant national and international standards and guidance. This includes evaluating standards of care, in line with research, policy and evidenced-based practice across a range of settings.

The CNS uses advanced nursing knowledge and skills to:
· Contribute to shorter stays and improved patient experience by working at an advanced level within the RN scope of practice (NCNZ, 2025) to improve the effectiveness of care delivery
· Strengthen a nurse-led case-management model for Haematology patients
· Establish/maintain nurse-led services/clinics in both inpatient and outpatient settings to increase patient access to safe timely assessment and clinical management to improve patient health outcomes
· Practice with increased autonomy to ensure Haematology patients receive appropriate management at key care intervals. This includes initiating investigations appropriate for practice level and expertise (supported by policy approved by nursing leadership and service).

Key Result Area	Expected Outcomes / Performance Indicators
Professional Accountabilities	• Accepts responsibility for ensuring their nursing practice and conduct meet the standards of the professional, ethical, and relevant legislated requirements • Role models expert and advancing practice and applies the principles of Te Tiriti o Waitangi in nursing practice • Contributes to improving inequities by working with colleagues to operationalise Te Whatu Ora's commitment to meet the Pae Ora (Healthy Futures) Act 2022 obligations as Te Tiriti o Waitangi partners. • Leads and supports excellence in nursing practice
